Town Clerk's Report

TOWN MEETING

Monday, March 6, 1922.

Charles A. Owen was elected Moderator and sworn by the Town Clerk.

The Tellers appointed by the Selectmen as required by law were sworn by the Town Clerk and assigned to duty as follows:

Ballot Clerks — Charles T. Ervin, Republican; Ralph C. Gear, Democrat.

Tellers—Clarence S. Lynde, Arthur J. Robinson, T. Fred Emery, Vivian Symmes, Alice Hacking, Elsie deGruchy, Maude L. Chesley, Republicans; Paul V. McHale, Charles F. Blodgett, James E. Fulton, Ella L. Baldwin, Mary E. Kerns, Alice Fedigan, Mary B. Nathanson, Democrats.

The ballots were delivered to the Ballot Clerks and a receipt taken for the same, the ballot box opened, examined, the dial set at 0, locked, and the keys given in charge of the Moderator; after which the polls were declared open under Article 2.

Voted, To authorize the Moderator to appoint a committee to nominate four candidates for three years and one candidate for one year for the Town Planning Board.

Under authority of the foregoing vote the Moderator appointed as that committee, the following:

Arthur N. Newhall, Ralph C. Gear, Elsie L. deGruchy.

Voted, To authorize the Moderator to appoint a committee of three to nominate candidates for the Finance and Advisory Board.

Under authority of the foregoing vote the Moderator appointed as that committee the following:—

John Johnston, Charles W. H. Kelly, James A. McDonough.

Voted, That when this meeting adjourn, it be until Tuesday, March 28, 1922, at 7.30 o'clock, P. M., to meet in Armory Hall.

The moderator appointed as additional Tellers to assort and count the ballots, the following, sworn by the Town Clerk:—

Republicans—Charles V. Blackburn, Elwyn C. Howes, G. Everett Stackpole, Charles F. Dinsmore, Ruth Van Buren, Robert E. Sheridan; Democrats—George E. Maguire, Paul D. Richardson, Thomas J. McHale, Jr., John J. Devlin, Helen M. McCormack, Eugene R. Duffy.

By unanimous consent of the Moderator and Town Clerk, the ballot box was opened at one o'clock, P. M., and ballots taken therefrom for the purpose of counting.

The Tellers appointed to assort and count the ballots were divided into groups of four, two Republicans and two Democrats in each group.

At 8 o'clock P. M., the polls were declared closed, at which time the ballot box registered 2443 as ascertained by the Town Clerk.

The Check-list at the gate had the names of 2443 persons checked as having received ballots.

The Check-list at the ballot box had the names of 2443 persons checked as having voted.

The number of ballots taken from the ballot box as counted by the Moderator was 2443.

The number of unused ballots returned to the Town Clerk, was 1057.

All the ballots cast having been assorted and counted, the tally sheets signed by the Tellers, the blocks of ballots sealed, the total tally sheet proved and signed in accordance with the law, declaration of the same was made as follows:—

ADJOURNED TOWN MEETING

Tuesday, March 28, 1922.

Meeting called to order by Moderator Charles A. Owen.

Article 3. Taken up. Chose Willie H. White, Lemuel W. Standish
and Leander V. Colahan, Selectmen elect, as Fence Viewers for the
ensuing year.

Voted, To authorize the Board of Selectmen to appoint all other
necessary Town Officers.

Article 4. Taken up, and Oliver W. Richardson presented the fol-
lowing resolution:—

Resolved, That the Town of Stoneham in annual town meeting as-
sembled hereby respectfully petitions Mr. F. T. Grant, General Pas-
senger Agent of the Boston & Maine Railroad for more adequate
passenger service on the Stoneham Branch of said Railroad.

Resolved, That we respectfully request said official to investigate
the merits of the gasoline rail car as produced by the International
Motor Company and recently installed upon at least one branch of the
New York, New Haven & Hartford Railroad, and either by the intro-
duction of such service upon said Stoneham Branch or by improve-
ment in the existing steam service, furnish more frequent passenger
transportation between Stoneham and Boston.

Voted, That the Moderator appoint a committee of seven to inter-
view the proper officials of the Boston & Maine Railroad to present
to them the resolutions just passed, and conduct any and all negotia-
tions with such officials looking to the improvement in passenger
transportation service between Stoneham and Boston.

Under the authority of the foregoing vote, the Moderator appointed as that committee the following:—Charles F. Buck, Arthur N. Newhall, Willie H. White, Ralph R. Patch, Wilbur W. Fiske, Albert P. Rounds, Charles Baldwin.

The following resolutions were offered by Oliver W. Richardson:

Resolved, That the Town of Stoneham in annual town meeting assembled, hereby expresses its deep appreciation and its thanks to Professor Edgar L. Patch for his faithful, efficient, and self-sacrificing services as a member and secretary of the Town Finance Committee during the sixteen years from 1905 to 1921.

It appreciates also the generous act of Prof. Patch in furnishing free of charge to the town, detailed typewritten reports of all meetings and recommendations of the Finance Committee while he was a member of it.

Resolved, That a copy of these resolutions be spread upon the records of the town, a copy sent to Professor Patch, and a copy published in each of the Stoneham papers.

REPORT OF COMMITTEE TO NOMINATE CANDIDATES FOR THE FINANCE AND ADVISORY BOARD

March 28, 1922.

We present the following nominees for the three-year term on the Town Finance Committee:

Mr. Almond H. Smith, Mr. Andrew Hacking, Miss Alice V. Peyton.

Yours respectfully,

John Johnston,

James A. McDonough,

Charles W. H. Kelly,

Voted, To accept the report of the committee nominating candidates for the Town Finance Committee.

Voted, That Almond H. Smith, Andrew Hacking and Alice V. Peyton serve as member of the Finance and Advisory Board for the term of three years.

REPORT OF THE COMMITTEE TO NOMINATE CANDIDATES FOR THE TOWN PLANNING BOARD

March 28, 1922.

Town Planning Board members for three years:

William F. Hunt, Charles W. Messer, Effie H. Gilson.

Member for two years: Hugh Hamill.

Arthur N. Newhall,

Ralph C. Gear,

Elsie deGruchy.

Voted, To accept the report of the committee nominating candidates for the Town Planning Board.

Voted, That William F. Hunt, Charles W. Messer and Effie H. Gilson serve as members of the Town Planning Board for three years, and Hugh Hamill serve as a member of the Town Planning Board for two years.

George A. Hincheliffe made a verbal report for the committee on Public Dump.

On motion of Lemuel W. Standish it was

Voted, That it is the sense of this meeting, that the Eastern Massachusetts Street Railway should not be permitted to collect more than one unit of fare within the town limits; that a committee of seven, of which the Selectmen shall be members, ex-officio, be appointed by the Moderator, whose duty it shall be to bring before the Massachusetts Department of Public Utilities and the Trustees of Eastern Massachusetts Street Railway Co., the question of readjustment and modification of street railway fares within the town.

Under authority of the foregoing vote, the Moderator appointed as that committee the following:

The Board of Selectmen, ex-officio, and Mrs. Frances R. Nickerson, Herbert H. Richardson, Hugh Hamill, J. Horace Green.

Article 5. To raise such sums of money as may be necessary to defray town charges for the year ensuing, and make appropriations for the same.

Voted, That the recommendations of the Finance and Advisory Board covering a total of \$186,015.12 be raised and appropriated; \$9,722.50 be appropriated from income of the Water Department, \$240.00 be appropriated from Betterment Revenue, \$24,900.00 be appropriated from Surplus Account, \$750.00 be appropriated from Sewer Revenue, and \$1,103.41 be appropriated from unexpended balances be adopted.

To raise and appropriate:

Voted, To appropriate the sum of \$100.00 from the appropriation for Highways, Sidewalks, Catch Basins and Drains to repair Central Square the ensuing year.

Article 40. To see if the town will vote to repair Rockland Street; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 41. To see if the town will vote to repair Union Street, and construct a sidewalk on the southerly side thereof; make an ap-

propriation for the same, or do anything in relation thereto.

Voted, To appropriate the sum of \$75.00 from the appropriation for Highways, Sidewalks, Catch Basins, and Drains to repair Union Street the ensuing year.

Article 42. To see if the town will vote to construct a sidewalk on the easterly side of Perkins Street, from the end of the walk at land of Albert F. Orne, southerly to Orris Street; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 43. To see if the town will vote to repair with gravel or other material, the sidewalk abutting the land of George E. Merri-field on Highland Avenue; make an appropriation for the same, or do anything in relation thereto.

Voted, To raise and appropriate the sum of \$90.00 to repair the sidewalk on Highland Avenue, abutters to pay one-half the cost.

Article 44. To see if the town will vote to construct a cinder sidewalk on the easterly side of Main street, from Wilson Road, north-erly to connect with the sidewalk at Summer Street, to make it possi-ble for children to go to and from school without crossing Main Street; make an appropriation for the same, or do anything in relation thereto.

Voted, To construct a cinder sidewalk on Main Street from Peabody Road to Summer Street and appropriate the sum of \$350.00 from Side-walk Revenue for the same.

Article 45. To see if the town will vote to concrete the sidewalk on the southerly side of Gerry Street and on the westerly side of Pine Street, abutting land of John Baduvakis, under the provisions of Chapter 83, Section 26 of the General Laws; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 46. To see if the town will vote to concrete the sidewalk on the southerly side of Gerry Street abutting land of John Baduvakis situated at the corner of Main Street, under the provisions of Chapter 83, Section 26 of the General Laws; make an appropriation for the same or do anything in relation thereto.

Voted, To raise and appropriate the sum of \$34.56 and appropriate the sum of \$11.69 from Sidewalk Revenue, to concrete the sidewalk on Gerry Street, corner of Main Street, under the provisions of Chapter 83, Section 26 of the General Laws.

Article 47. To see if the town will vote to concrete the sidewalk on the southerly side of Marble Street, abutting land of George B. Williams, under the provisions of Chapter 83, Section 26 of the General Laws.

Voted, To indefinitely postpone the subject matter of this article.

Article 48. To see if the town will vote to construct a cement side-

walk on the westerly side of Parkway Road, from Wilson Road southerly for a distance of 79.77 feet, and abutting land of William Brooks, under the provisions of Chapter 83, Section 26 of the General Laws; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 49. To see if the town will pay to George Felton, Parkway Road, the sum of \$8.33, said sum being one-half the cost of 16 2-3 yards of tar concrete; he having constructed a cement sidewalk abutting his land and paying the entire amount; said \$8.33 being the amount which town would have paid had the walk been constructed under the provisions of Chapter 83, Section 26 of the General Laws; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 50. To see if the town will vote to concrete the sidewalk on the easterly side of Main Street from Peabody Road southerly to the south bound of land of John B. Alley, under the provisions of Chapter 83, Section 26 of the General Laws; make an appropriation for the same, or do anything in relation thereto.

Voted, To raise and appropriate the sum of \$87.75 to concrete the sidewalk on Main Street abutting property of John B. Alley and C. A. Rogers, under the provisions of Chapter 83, Section 26 of the General Laws.

Article 51. To see if the town will vote to construct catch basins at the corner of Charles and Avon Streets, with proper outlets to properly take care of surface water at that point; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 52. To see if the town will vote to lower and enlarge the underground drain at the corner of Avon and Myrtle Streets, from its beginning at land of Harry N. Moulton for its entire length; make an appropriation for the same, or do anything in relation thereto.

Voted, To appropriate the sum of \$50.00 from the appropriation for Highways, Sidewalks, Catch Basins and Drains to repair the drain at the corner of Avon and Myrtle Streets.

Article 53. To see if the town will vote to pipe and cover the natural water way leading from land of Daniel E. Quinlan, northerly to Summer Street with sufficient size pipe to care for the flow of water; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 54. To see if the town will vote to raise the grade of Wilson Road to conform to the grade of Main Street, in order to take care of water thereon; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 55. To see if the town will vote to raise the sides of, and cover the drain running through land of C. W. Baert on Cottage Street; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 56. To see if the town will vote to extend the water main in and through Main Street, from the main therein near Broadway, northerly to connect with the main in North Street; raise and appropriate money therefor by sale of water bonds or otherwise; pass any vote or votes relative thereto.

Voted, To extend the water main in and through Main Street from the main therein near Broadway, northerly to connect with the main in North Street, at an estimated cost of \$900.00 when a suitable guarantee has been received to pay to the town annually 8% upon the cost of construction.

Voted, That the Town Treasurer be, and hereby is authorized to sell one water bond of the denomination of \$1,000.00 the issue of which has been authorized by the town, the proceeds of the same to be used for laying the water main in and through Main Street as voted.

Article 57. To see if the town will vote to construct a sewer in and through Summerhill Street, from Doherty's Lane, so-called, westerly to connect with the sewer in Summer Street; raise and appropriate money therefor by sale of sewer bonds or otherwise; pass any vote or votes relative thereto.

Voted, To construct a sewer in and through Summerhill Street, from Doherty's Lane, so-called, westerly to connect with the sewer in Summer Street at an estimated cost of \$750.00.

Voted, That the Town Treasurer be, and hereby is authorized with the approval of the Selectmen, to borrow the sum of \$750.00 for the purpose of constructing the sewer in and through Summerhill Street, and to issue a note of the town therefor; said note to be signed by the Town Treasurer and countersigned by the Selectmen; to be dated June 1, 1922, and to bear interest at the rate of 5% per annum, payable semi-annually on June 1 and December 1, and the principal to be paid one year from date.

Article 58. To see if the town will vote to construct a sewer in and through Elm Street from Washington Street westerly to the sewer in William Street; raise and appropriate money therefor by sale of sewer bonds or otherwise; pass any vote or votes relative thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 59. To see if the town will vote to install a hydrant on West Hancock Street; make an appropriation for the same, or do anything relative thereto.

Voted, To install a hydrant on West Hancock Street; and raise

and appropriate the sum of \$150.00 for the same.

Article 60. To see if the town will vote to install a Fire Alarm Box on Main Street at the corner of Wilson Road; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 61. To see if the town will vote to install an electric street light on Gould Street Court, opposite the residence of W. I. Baneroff; make an appropriation for the same, or do anything in relation thereto.

Voted, That the installation of an electric street light on Gould Street Court be referred to the Board of Selectmen; any expense incurred to be paid from the appropriation for street lighting.

Article 62. To see if the town will vote to install an electric light on the High School grounds; make an appropriation for the same; or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 63. To see if the town will vote to raise and appropriate the sum of \$4,000.00 for care of shade trees the ensuing year, or do anything in relation thereto.

Voted, To raise and appropriate the sum of \$3,000.00 for the care of shade trees the ensuing year.

Article 64. To see if the town will vote to raise and appropriate the sum of \$300.00 for new shade trees the ensuing year; or do anything in relation thereto.

Voted, To raise and appropriate the sum of \$300.00 for new shade trees for the ensuing year.

Article 65. To see if the town will vote to purchase hose for the Fire Department; make an appropriation for the same, or do anything in relation thereto.

Voted, To raise and appropriate the sum of \$1,100.00 for the purchase of hose for the Fire Department the ensuing year.

Voted, That the Engineers of the Fire Department be a committee to purchase the hose as voted.

Article 66. To see if the town will vote to purchase a Motor Ladder Truck with Chemical Tank for the Fire Department; make an appropriation for the same, or do anything in relation thereto.

Voted, That the Board of Selectmen, the Engineers of the Fire Department and T. Arthur Pettengill, Edwin S. Lane and Linwood L. Gove be a committee to investigate the advisability of the purchase of a Motor Ladder Truck for the Fire Department to report at next annual meeting.

Article 67. To see if the town will vote to purchase twelve Pony Chemical Tanks, to be used by the Fire Department in the extinguishing of brush and grass fires; make an appropriation for the same, or do anything in relation to the same.

Voted, To raise and appropriate the sum of \$125.00 for the purpose of purchasing twelve Pony Chemical Tanks for the Fire Department.

Voted, That the Engineers of the Fire Department be a committee to purchase the Pony Chemical Tanks as voted.

Article 68. To see if the town will vote to accept the Building Regulations as revised by the committee appointed at the last annual town meeting, or take any action relative thereto.

Voted, To accept and adopt the Building Regulations as amended and reported by the committee on Building Regulations.

Article 69. To see if the town will vote to raise and appropriate a sufficient sum of money to place additional windows in the Washington, Whittier and Lincoln School buildings, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 70. To see if the town will vote to raise and appropriate a sufficient sum of money to install electric lights in the Washington, Whittier and Lincoln School buildings, or do anything in relation thereto.

Voted, To raise and appropriate the sum of \$900.00 for the purpose of installing electric lights in the Washington, Whittier and Lincoln School buildings the ensuing year.

Article 71. To see if the town will vote to raise and appropriate a sufficient sum of money to erect a Fire Escape on the north side of the Dean School building, as ordered by the building inspector, State Police.

Voted, To raise and appropriate the sum of \$1,400 to erect an additional fire escape on the Dean School building.

Article 72. To see if the town will vote to raise and appropriate a sufficient sum of money to install a new boiler in the High School building, to replace the present one, or do anything in relation thereto.

Voted, To raise and appropriate the sum of \$1,000 for a new boiler for the High School building the ensuing year.

Article 73. To see if the town will vote to raise and appropriate the sum of \$500.00 for Americanization Schools for the ensuing year, or do anything in relation thereto.

Voted, To raise and appropriate the sum of \$500.00 for Americanization Schools the ensuing year.

Voted, To appoint a committee of three to investigate the advisability of installing a Police Signal System, said committee to report at the next annual town meeting.

The Moderator appointed as that committee the following named persons: George P. Hamill, Charles F. Buck, Charles W. Evans.

Article 78. To see if the town will vote to locate a hydrant at or near the intersection of Ravine Road and Woodland Road; make an appropriation for the same, or do anything in relation thereto.

Voted, To indefinitely postpone the subject matter of this article.

Article 79. To see what sum of money, if any, the town will raise and appropriate to pay for land taken by the town for relocation of Pond Street, under decree of County Commissioners.

Voted, To refer the matter of land damages by reason of relocation of Pond Street to the Board of Selectmen, and raise and appropriate the sum of \$200.00 for payment of same.

Voted, To adjourn.

Stoneham, Mass., April 22, 1922.

Mr. George N. Green, Town Clerk of Stoneham, Mass.

Dear Sir:—I duly received your official copy of the resolutions passed at the town meeting held March 28, 1922, relating to my services for the town.

I never anticipated or looked for such action, but desire to express my great pleasure at learning that my fellow townsmen believed that I had done my best to be faithful to the trust reposed in me. I hold it to be the duty of every citizen to give to his community his best

thought and service in every line of activity looking to advancement in higher civic betterments and material efficiency.

While never seeking office or public responsibility, if by chance it comes, he should, irrespective of financial return, unreservedly give to each duty the most conscientious attention.

Thanking the citizens for their kind appreciation, I remain

Yours truly,

Edgar L. Patch.

STATE PRIMARY, SEPTEMBER 12, 1922

The meeting was called to order by Willie H. White, Chairman of the Selectmen, and the warrant was read by the Town Clerk.

The Tellers appointed by the Selectmen as required by law were sworn by the Town Clerk and assigned to duty as follows:

Ballot Clerks—Charles T. Ervin, Republican; Ralph C. Gear, Democrat. Tellers—Clarence S. Lynde, T. Fred Emery, Alice Hacking, Elsie DeGruchy, Maude L. Chesley, Edith M. Reynolds, Republicans; James E. Fulton, Ella L. Baldwin, Charles F. Blodgett, Alice Fedigan, Agnes Rafferty, Mary E. Kerns, Democrats.

The official ballots were delivered to the Ballot Clerks and a receipt given for the same, the ballot box opened, examined, the dial set at 0, locked and the keys given in charge of the Chairman, after which the polls were declared open.

The Chairman appointed as additional Tellers to assort and count the ballots the following, who were sworn by the Town Clerk:

Alwyn C. Howes, Ray L. Stone, Edward Perry, Charles V. Blackburn, Theodore A. Healey, Daniel W. Poore, Robert E. Sheridan, Republicans; James L. Kenney, George E. Maguire, Helen M. McCormack, John J. Devlin, George A. McDonald, Rosalie Doherty, Mary Halpin, Democrats.

The Tellers were divided into groups of four, two Republicans and two Democrats in each group.

At 8 o'clock P.M., the polls were declared closed, at which time the ballot box registered 980 as ascertained by the Town Clerk.

The Check-List at the gate had the names of 980 persons checked as having received ballots, Republicans 886, Democrats 94.

The Check-List at the ballot box had the names of 980 persons checked as having voted, 886 Republicans, 94 Democrats.

The number of ballots taken from the ballot box as counted by the Chairman was 980, Republican 886, Democrats 94.

All the ballots cast by Republicans having been assorted and counted, declaration of the same was made as follows:

REGULATIONS

At a meeting of the School Committee for the Town of Stoneham, held this 26th day of October A. D. 1922, it was ordered that the following regulation relative to attendance in the public schools of Stoneham be adopted:

1. "An unvaccinated child shall not be admitted to attendance at school except upon presentation to the Superintendent of Schools of a certificate, signed by a registered physician and bearing date within one year of the date of such presentation, that the physician has personally examined the child and that he is of the opinion that the physical condition of the child is such that his health will be endangered by vaccination. Such child may thereupon be admitted to school attendance without vaccination, while such physical condition continues; provided, however, that, if in the opinion of the School Committee, it is necessary for public health and safety, such unvaccinated child shall be required to present a certificate signed by a registered physician not oftener than once each year, to the effect that the physical condition of the child continues to be such that his health will be endangered by vaccination."

2. This regulation shall take effect on the first day of November in the year 1922.

3. Whoever refuses or neglects to comply with the requirements of Sec. 1 hereof shall forfeit \$5.

TOWN MEETING, TUESDAY, NOVEMBER 7, 1922

Meeting called to order by Willie H. White, Chairman of Selectmen. The Warrant was read by the Town Clerk.

The Tellers appointed by the Selectmen as required by law were sworn by the Town Clerk and assigned to duty as follows:

Ballot Clerks—Charles T. Ervin, Republican; Ralph C. Gear, Democratic.

Tellers—Clarence S. Lynde, T. Fred Emery, Carrie Bancroft, Elsie deGruchy, Maude L. Chesley, Edith M. Reynolds, Republican; James E. Fulton, Charles F. Blodgett, Alice Fedigan, Ella L. Baldwin, Mary A. Kerns, Mary B. Nathanson, Democratic.

The ballots were delivered to the Ballot Clerks who receipted for the same, the ballot box opened, examined, the dial set at 0, locked and the keys given in charge of the Chairman, after which the polls were declared open.

The Chairman appointed as additional Tellers to assort and count the ballots the following:

Republicans—George E. Stackpole, George H. Dike, Charles F. Dinsmore, J. Edward Bell, James J. McHale, Jr., Walter H. Hatch, Alma Johonnot, Stella S. Weed; Democrats—John J. Devlin, Eugene R. Duffy, George E. Maguire, Thomas H. Lannon, George A. McDonald, Harriett E. Sheridan, Helen L. McCormack, Agnes Young.

The foregoing Tellers were sworn by the Town Clerk, and divided into groups of four, two Republicans and two Democrats in each group.

By unanimous consent of the Chairman and Town Clerk the ballot box was opened and ballots taken therefrom for the purpose of counting at one o'clock, P. M.

At eight o'clock P. M., the polls were declared closed at which time the ballot box registered 2540 as ascertained by the Town Clerk.

The Check-List at the gate had the names of 2540 persons checked as having received ballots.

The Check-List at the ballot box had the names of 2540 persons checked as having voted, as counted by the Tellers.

The number of ballots taken from the ballot box as counted by the Chairman was 2540, as follows, 2530 ballots cast by voters and 10 absent voters ballots. The number of ballots returned to the Town Clerk was 1721.

All the ballots cast having been assorted and counted, the blocks of ballots sealed, the tally sheets signed by the Tellers, tabulated and proved, the total tally sheet signed by the Chairman, declaration of the same made as follows:

RECOUNT OF BALLOTS CAST TUESDAY, NOVEMBER 7, 1922, FOR SENATOR IN CONGRESS. PETITION.

To the Town Clerk of Stoneham, Mass., Nov. 9, 1922.

We, the undersigned, hereby request a recount of ballots for the office of United States Senator in the Town of Stoneham, for the reason that we have reason to believe, and do believe, that the records or copies of records made by the Election Officers, in the precincts of such Town of Stoneham are erroneous in that more votes were credited to Henry Cabot Lodge than were received by him, and that more votes were cast for William A. Gaston than were credited to him by said Election Officers.

PETITION

To Registrars of Voters Stoneham, Mass., Nov. 8, 1922.

We, the undersigned registered voters of Stoneham, represent that we have reason to believe, and do believe, that the returns of the Election Officers of said town of the votes cast at the Election on Tuesday, Nov. 7, 1922, for United States Senator are erroneous in this respect: That William A. Gaston of Boston is credited with more and Henry Cabot Lodge of Nahant with less votes than were actually cast for them; and we believe a recount of the votes cast in said town will affect the election of one or more candidates at such election. We therefore ask that the votes cast for said William A. Gaston of Boston and Henry Cabot Lodge of Nahant as aforesaid, be recounted.

RECOUNT

Stoneham, Mass., Nov. 16, 1922.

To the Town Clerk, Stoneham, Mass.

Dear Sir:—On petitions duly filed, praying for a recount of the ballots cast Tuesday, November 7, 1922, for United States Senator, after due notice to all parties interested, the Board of Registrars of Voters met in the Selectmen's office, Buck Building Thursday, November 16, 1922, at 3 o'clock in the afternoon, for the purpose set forth in said petitions.

Kurt Franke was appointed Clerk; Henry Cabot Lodge was represented by Arthur N. Newhall; William A. Gaston was represented by John J. Geary of Woburn, Mass.; Stoneham Republican Town Committee was represented by George A. Hersam.

The blocks of ballots were delivered to the Board, opened and counted with the following result:

Washington Cook of Sharon, Independent	20
William A. Gaston of Boston, Democratic	931
Henry Cabot Lodge of Nahant, Republican	1384
John A. Nicholls of Boston, Prohibition Progressive	69
John Weaver Sherman of Boston, Socialist	25

CANVASS OF VOTES FOR REPRESENTATIVES,
EIGHTEENTH MIDDLESEX DISTRICT

COMMONWEALTH OF MASSACHUSETTS
COUNTY OF MIDDLESEX
CITY OF WOBURN

In accordance with the provisions of Section 125, Chapter 54, of the Revised Laws of Massachusetts of 1921, the City Clerk of Woburn and the Town Clerks of Reading and Stoneham, being the City and Town Clerks of every city and town in Representative District number eighteen within said County, met at the City Hall, Woburn, at noon on Friday, November 17, A. D. 1922, being the tenth day succeeding the day of the State Election held on Tuesday, November 7, A. D. 1922, and then and there opened, examined and compared the copies of records of votes cast at said election for the office of representative, and determined therefrom that

Gustave W. Everberg of Woburn
and

Lemuel W. Standish of Stoneham

were elected to the office of Representative.

The following is a schedule of the names of all persons for whom votes for Representative were given in said District and the number of votes given to each person, viz:

Gustave W. Everberg of Woburn	5098
Edward Paul Kelley of Woburn	3152
Lemuel W. Standish of Stoneham	4535
Leonard E. Weafer of Woburn	3595

In witness whereof, we the City Clerk of Woburn and the Town Clerks of Reading and Stoneham hereunto set our hands this 17th day of November A. D. 1922.

James A. McLaughlin, City Clerk, Woburn,
Millard F. Charles, Town Clerk, Reading,
George N. Green, Town Clerk, Stoneham.

CERTIFICATE OF ELECTION

COMMONWEALTH OF MASSACHUSETTS

COUNTY OF MIDDLESEX, ss.

At a meeting of the qualified voters of Representative District Number Eighteen held on the seventh day of November instant, for choice of Representative in the General Court, to be holden on the first Wednesday of January next,

Gustave W. Everberg of Woburn,
Lemuel W. Standish of Stoneham

were elected to said office.

Dated at Woburn the 17th day of November in the year one thousand nine hundred and twenty-two.

James A. McLaughlin, City Clerk of Woburn,
George N. Green, Town Clerk of Stoneham,
Millard F. Charles, Town Clerk of Reading.

BOARD OF HEALTH REGULATIONS
ADOPTED NOVEMBER 20, 1922

The Board of Health of the town of Stoneham, as authorized by the General Laws, Chapter 111, Section 31, hereby makes the following regulations for the public health.

The board earnestly requests the co-operation of all citizens of the town in securing a desirable sanitary condition and wishes to be notified of any existing nuisance, source of filth, or cause of sickness within the town.

NUISANCES

No person shall allow any sink or waste water to be turned into or upon any street, lane, gutter or sidewalk of the town.

Brooks, open drains and sluiceways upon premises within certain defined limits in the town shall be kept free from such obstructions as permit the accumulation of stagnant water.

No person shall deposit any ashes, tin cans or rubbish of any description in any place within the town other than in a public dumping ground, or on premises owned or occupied by him, without a permit from the Board of Health.

No person shall suffer any waste or stagnant water which is likely to become a nuisance or offensive or dangerous to the public health to remain in any cellar or on any lot of land owned by him.

No person shall deposit filth or fish, flesh, slops, offal or the contents of any cesspool or privy vault upon the surface of the ground unless the same is plowed under or otherwise covered within twenty-four hours.

No person shall remove the contents of any cesspool, privy vault or drain from any premises (between April 1 and November 1) without a permit from the Board of Health, and in all cases only in water-tight receptacles, and at such times and in such manner as shall not be offensive nor dangerous to the public health.

No person shall construct or establish within the town any cesspool or privy vault without a written permit from the Board of Health, and then only in such location and in such manner as it shall approve.

No person shall establish a well for drinking or domestic purposes without a written permit from the Board of Health.

No stable manure, swill or other noxious substance shall be transported through the streets of the town except in covered containers and in such manner as to prevent a nuisance.

DEFINITIONS

QUARANTINE.—The term quarantine, as used in these rules, shall be understood to mean that persons in the dwelling, tenement, apartment or other quarters under restriction shall not leave said premises, and that no other persons save the physician, nurse, clergyman and authorized health officers shall enter upon such premises except by permission of the Board of Health.

ISOLATION.—The term isolation, as used in these rules, shall be understood to mean the restriction of the patient and nurse or other attendants to a certain room or rooms apart from the other members of the household in a manner satisfactory to the Board of Health.

HOUSEHOLDER.—The term householder, as used in these rules, shall be understood as meaning the head of the household, or the one in charge of the household, or the one in charge of a hospital, asylum, prison, jail, school or institution, public or private.

TENEMENT, APARTMENT OR DWELLING.—The term tenement, apartment or dwelling, as used in these rules, shall be understood to mean the room or rooms or portion of a building used as a residence by a single family or household.

DISINFECTION.—The term disinfection, applied to premises, as used in these rules shall be understood to mean the cleansing, renovation and airing of the same, following the presence of cases of communicable diseases, and such additional measures as may be required by the Board of Health.

ISOLATION OR QUARANTINE

Any person suffering from a disease declared to be dangerous to the public health shall be isolated to the satisfaction of the Board of Health when in its opinion it shall be necessary.

Isolation or quarantine shall continue until release by the direction of the Board of Health. The minimum periods of isolation shall be as follows:

ANTERIOR POLIMYELITIS. (Infantile Paralysis).—Twenty-eight days from the onset of the disease, and thereafter until acute symptoms have subsided.

DIPHTHERIA.—Ten days from the onset of the disease, and thereafter until two consecutive negative cultures, taken at least twenty-four hours apart, from both nose and throat of the patient, and one negative culture from both nose and throat of all other inmates of the house have been taken.

SCARLET FEVER.—Twenty-eight days from the onset of the disease, and thereafter until infective discharges have ceased.

MEASLES.—Ten days from the onset of the disease, and thereafter until all symptoms have ceased.

WHOOPING COUGH.—Twenty-eight days from the onset of the disease (catarrhal symptoms).

MUMPS.—Seven days from the onset of the disease, and thereafter until acute symptoms have subsided.

CHICKEN POX.—Fourteen days from the onset of the disease, and thereafter until all skin lesions have healed.

SMALLPOX.—Twenty-eight days from the onset of the disease, and thereafter until all skin lesions have healed.

GERMAN MEASLES.—Seven days from the onset of the disease, and thereafter until all symptoms have ceased.

EPIDEMIC CEREBROSPINAL MENINGITIS.—Fourteen days from the onset of the disease, and thereafter until all acute symptoms have ceased.

CONTACTS

Persons who have been exposed to diseases dangerous to the public health shall be deemed to be in danger of developing such disease unless immunized by a previous attack or by vaccines, or unless free from the symptoms of the disease during the following longest common incubation periods after the last exposure:

Diphtheria: Immunization or eight days for negative cultures.

Scarlet Fever: Eight days.

Smallpox: Twenty-one days.

Anterior Poliomyelitis: Fourteen days.

Epidemic Cerebrospinal Meningitis: Ten days.

Chicken Pox: Twenty-one days.

Measles: Fourteen days.

Mumps: Twenty-five days.

Whooping Cough: Fourteen days.

Septic Sore Throat: Three days.

No person from any dwelling wherein a dangerous disease exists shall attend any school, church or public gathering of any kind without a permit from the Board of Health, or as otherwise provided by law.

No person from any dwelling wherein a dangerous disease exists shall take any book or magazine to or from any public library, or any library where books are loaned to the public, without a permit from the Board of Health.

No person shall remove or permit to be removed from any house, tenement or apartment under quarantine for a disease dangerous to the public health any clothing, books, milk bottles or other property

without permission of the Board of Health.

No child who is known to be affected by active pulmonary tuberculosis or discharging lesions of tuberculosis shall be allowed to attend any public school without a permit from the Board of Health.

No person shall engage in the handling of milk or food intended for sale after exposure to or while residing in a household in which there is a case of smallpox, scarlet fever, diphtheria, typhoid fever, septic sore throat, anterior poliomyelitis or epidemic cerebrospinal meningitis without the permission of the Board of Health.

No person, except a physician or registered nurse, shall engage in any occupation involving close contact with children after exposure to, or while residing in a household in which there is a case of smallpox, chicken pox, diphtheria, scarlet fever, septic sore throat, anterior poliomyelitis epidemic cerebrospinal meningitis, whooping cough or mumps without permission from the Board of Health.

No person, except the immediate family and the persons necessarily concerned in the burial, shall enter a house in which there is lying the body of a person who died of cholera, smallpox, diphtheria, scarlet fever, anterior poliomyelitis or epidemic cerebro spinal meningitis.

All premises in which there has been a case of smallpox, scarlet fever, diphtheria, anterior poliomyelitis, epidemic cerebrospinal meningitis or other disease dangerous to the public health shall be disinfected to the satisfaction of the Board of Health.

Any person may be required to remove from a dwelling in which a dangerous disease exists whenever in the opinion of the Board of Health the isolation of the patient or the amount of contact is such as to require such action

FOODSTUFFS

No person or corporation, individually or by his or its agents, servants or employees, shall allow the body of any animal or part thereof, or any poultry, fish, bread, pastry, or other provisions of foodstuffs which may be used as human food, to be carried or carted through the streets or public ways of the town unless the same be so covered as to be protected from infection and injury by dust, dirt or flies.

No fruit, vegetables or any other articles of foodstuffs which may be used for human food without cooking or peeling, shall be kept or exposed for sale in any street, or public place, in or outside any shop or store, or in the open windows or doorways thereof, unless they be kept so covered so that they shall be protected from infection and injury by dust, dirt, and flies.

No fruit, vegetables or other articles which are intended to be used as human food, shall be exposed or displayed in any street or way, or

in front of any place of business, unless the bottom of the box or receptacle containing such articles is raised at least 24 inches above the sidewalk, platform or landing upon which such receptacle rests.

No person shall use any used paper or newspaper as a wrapper for any articles of food.

No glasses or other drinking utensils used at soda fountains, restaurants or other refreshment places shall be used unless sterilized in boiling water at least once a day, and shall be washed and rinsed in running water before each separate use thereof.

No foodstuffs intended for sale shall be kept in any room used for living or sleeping purposes.

BARBER SHOPS

All barber shops, together with the furniture within, shall be kept in a cleanly and sanitary condition, must be well ventilated and provided with hot and cold water. Mugs, shaving brushes, razors, scissors, clipping machines, pincers, needles and all other metal instruments must be sterilized by immersion in boiling water or in alcohol of at least 60% strength after each separate use. Combs must be thoroughly cleaned with hot water after each separate use. A separate clean towel shall be used for each person. Alum, or other material used to check the flow of blood, shall be applied only on a towel or other clean cloth. The use of powder puffs and sponges is prohibited except that a sponge owned by a customer may be used only on him.

No person shall be allowed to use any barber shop as a sleeping room.

Every barber shall thoroughly cleanse his hands immediately after serving each customer.

Every barber shop shall be inspected at least twice annually by the sanitary agent of the Board of Health. A copy of the rules governing barbers and barber shops shall be conspicuously posted in each barber shop.

Whoever violates any of the provisions of these regulations shall forfeit a sum not exceeding \$100, except as otherwise provided by law.

JOSEPH H. KERRIGAN, M.D.

GEORGE A. HINCHCLIFFE,

LAWRENCE E. DOUCETT,

Board of Health.

BUILDING REGULATIONS

For Inspection and Construction of Buildings, Town of Stoneham

Section 1. The Selectmen shall annually, in April, appoint an Inspector of Buildings, and provide him, at the expense of the town,

with suitable record books, permits and printed matter. Said Inspector shall hold office for one year from May first, or until his successor is appointed and qualified, unless otherwise removed by the Board of Selectmen. He shall be able and experienced in building construction. He shall keep a record of the department and shall submit to the Selectmen yearly a report of such business, and perform such other duties as may be required of him by the Board of Selectmen. His books and records shall, at all reasonable times, be open for inspection by any party in interest. He shall deposit with the Town Clerk all books, records and other documents pertaining to his office at the expiration of the term of his office, or at the time his successor is appointed. The department for inspection of buildings shall be under the charge of the Inspector of Buildings, who shall, in accordance with the statutes and ordinances* issue permits for, and inspect the erection and alteration of buildings in the town.

DUTIES OF INSPECTOR OF BUILDINGS

Section 2. In his capacity as Inspector of Buildings, he shall examine all buildings which are to be moved, and certify to the Selectmen that the building can be moved safely.

Section 3. He shall examine all buildings under applications to raise, enlarge, alter or build upon, and make a record of the same. These records shall always be open to the inspection of the Engineers of the Fire Department and the Selectmen of the town.

Section 4. Any person intending to erect any dwelling house, stable, shop, store or other building in the town of Stoneham, shall, before proceeding to erect the same, give notice in writing to the Building Inspector of such intention and of the character and location of the proposed building, and before proceeding to erect same, or lay a foundation thereof, obtain a permit from the Inspector of Buildings, and providing the plans and specifications thereof conform to the building regulations of the town, the Inspector shall grant said permit. No person having obtained such a permit shall proceed with the construction of the building without first having notified the Building Inspector, informing him of the date when the construction will start. No permit issued by such Inspector, whether for a new building or for alterations, shall be in force for a longer time than twelve months.

ALTERATIONS AND ADDITIONS

Section 5. Any alteration or addition to any building already erected or hereafter to be built, not affecting the construction of the external or party walls, chimneys, or stairways, shall, to the extent of such work be subject to these regulations. No building already erected or hereafter built shall be raised or built in such a manner that were

such building wholly built or constructed after this by-law, it would be in violation of any provisions thereof. The application for such permits shall specify, in detail, the location and size of the building to be erected and the material of which it is to be constructed, and the use for which it is intended, and when required, plans shall be filed with the Inspector. The removal, extension, or essential alterations or the rebuilding or repairing of any buildings which have been destroyed by fire, shall be subjected to the restrictions which are imposed by this section on the erection of new buildings.

FOUNDATIONS

Section 6. Every wooden building or structure to be used for dwelling or mercantile purposes hereafter built in the town, shall have foundations resting on solid ground, piles, concrete or other durable structure. Below the grade, the foundation walls shall be built of stone, concrete or brick, and if of brick, to be laid one-third Portland cement mortar consisting of one part Portland cement, two parts lime and proper amount of sand properly mixed, the walls not to be less than twenty-four inches at the bottom and sixteen inches at the top, all first course to extend through he wall. The Inspector may require any wall to be laid in mortar, one-third Portland cement, if deemed by him necessary. All walls laid dry shall be pointed with Portland cement mortar, consisting of one part Portland cement, one part lime, and a proper amount of sand, properly mixed. Foundation walls of brick or concrete shall not be less than twelve inches thick, bracketed out at bottom eight inches, one foot high, and if of brick, to be laid in one-third Portland cement mortar. All foundations shall be thoroughly bonded. In case of brick walls bonding must be by header courses every eighteen inches. All parts of foundations which are built of stone, shall have the stones extend through sufficiently to bind the walls inside and outside. If of concrete, there shall be a footing course eighteen inches wide and twelve inches high, supporting a wall of uniform thickness of twelve inches, walls built of concrete shall consist of five parts of stone, three parts of sand, one part Portland cement, properly mixed.

UNDERPINNINGS

Section 7. Where stone underpinnings are used, they shall be thoroughly laid in mortar, one-third Portland cement. All brick underpinnings for buildings not over two stories high, shall be not less than eight inches thick, and under buildings three or more stories in height, shall not be less than twelve inches their entire height. All brick walls exposed to frost shall be constructed with hard burned brick, suitable for outside use. All trench walls shall extend at least

three feet, six inches (3' 6") below surface of ground exposed to frost. Foundation walls shall not be laid on frozen ground. Cement blocks may be used for building or underpinnings, provided they conform to the following formula: One part Portland cement, three parts good sharp sand, five parts broken stone or gravel, well graded as to size.

BUILDINGS ON PIERS, ETC.

Section 8. Buildings more than one story in height and with a floor area of over 500 square feet, that do not rest on foundation walls, shall be supported on suitably driven piles or piers of hard brick, stone or concrete. Corner piers shall be not less than twelve inches square and the intermediate piers not less than eight inches square. All footings of piers shall be started at least three feet, six inches (3' 6") below the surface of the ground, exposed to frost, and all piers and footings shall be solidly laid, one-third cement mortar or concrete.

SUPPORTS, ETC.

Section 9. Buildings shall be supported in cellars and basements by suitable iron columns on properly laid footings, stone, brick or piers, or posts not less than six inches in diameter at the small end. When cedar posts are used, they shall have footings not less than fourteen inches square of stone, cement or brick, and shall be twelve inches thick. If posts or other material are used, they shall have footings of brick not less than twelve inches square and twelve inches high of hard burned brick, laid in cement mortar and properly capped. Porches and piazzas shall be supported in a similar manner. Brick piers under main girders, shall be not less than twelve inches square if over seven feet high, and no pier shall be less than eight by twelve (8 x 12) inches.

PARTY WALLS, ETC.

Section 10. In the erection of wooden buildings in blocks of two houses, if more than two stories high, or in two-story houses if in blocks of more than two houses, to be occupied for dwelling purposes, the said buildings shall have brick or concrete party walls. Where brick is used for houses of more than two stories, the walls shall be not less than twelve inches thick on top of first floor and eight inches thick above the first floor and eight inches thick to top of second floor and carried up to under side of roof boards, and there shall be a space of four inches between the roof boards of adjacent buildings resting on the same wall; such place shall be filled solid with mortar to top surface of roof boards. Two-story dwelling houses shall have either party walls as prescribed for two-story houses in blocks of more than two houses, or shall have wood party walls with fire proof masonry filling between floor joists resting on party walls. Twelve-inch walls shall be

required in all cases where walls are required to carry floor joists. Where concrete is used in the construction of the above-mentioned buildings, the walls shall be of such design and thickness as to conform to the building law of the City of Boston.*

SPACING OF BUILDINGS, ETC.

Section 11. The external walls of any barn or out-building shall not be placed nearer than ten feet to any house or nearer than five feet to any other building, unless said external walls be of masonry and of a thickness prescribed for the erection of external walls in masonry building. Such walls shall be built twelve inches above roof boarding and shall be covered with metal, or may stop at roof boarding when so allowed by the Inspector. Porches, piazzas, bays, etc., are included in this regulation. All additions or alterations that shall be made to buildings already erected, shall be subject to these regulations. All buildings hereafter built of wood to be used as dwellings, for mercantile purposes or stables, shall be shingled, clapboarded, sheathed or covered with clap siding or cement plaster on the outside walls and the roof thereof shall be shingled, slated, or tarred and graveled or covered with a material* suitable to the Building Inspector. All roofs of new buildings must be covered with a fire resisting roof-covering, and all old roofs, when renewed, must be covered the same as new roofs.

Construction of all garages must comply with the regulations of the Fire Prevention Commissioner.

No building shall be erected or altered for a dwelling house with tenements or apartments with a kitchen above the second floor, unless the building is of first-class construction.

BUILDINGS WITH MASONRY WALLS

Section 12. In all buildings having masonry walls or material other than concrete, the brick or stone shall be solidly laid in lime or cement mortar. No stone walls shall be less than eighteen inches thick. All foundation walls, if of brick, shall be at least four inches thicker than the walls in the first story and shall be bracketed out eight inches or more at the base. External brick walls shall nowhere be less than eight inches thick. Buildings of area of 2500 square feet, or over, to have not less than twelve inch thick walls. In all two story buildings, the external walls shall be at least twelve inches thick in basement above ground and at least eight inches thick above the basement. In all three-story buildings, the external walls above basement shall be at least twelve inches thick to the second floor and eight inches above. If the building is more than thirty-five feet in height from the sidewalk to the ceiling of upper story, the external walls shall be not less

than sixteen inches thick in the first story and twelve inches thick above.

SILLS, POSTS, ETC.

Section 13. All wooden buildings and their projections over one-story in height, used as dwellings, stores, stables, or for manufacturing purposes, shall have sills not less than four by six inches and if over one story and a half high, the sills shall be not less than six by nine inches. Whenever ledgers are used in dwellings, there shall be fire stop cut in tight and also at floor line, also over all cross bearing partitions.

RAFTERS AND PLATES

Section 14. All dwellings over one story in height shall have plates not less than four by four inches and if over twenty feet in width, shall have rafters not less than two by six inches set not more than twenty-four inches on centers. No studding for any part of the outside walls of any building over one story in height shall be less than two by four by sixteen inches on centers.

GIRDERS, TRIMMERS, HEADERS, ETC.

Section 15. There shall be girders not less than six inches by eight inches under main partitions, or floor joists doubled or their equivalent, under all cross partitions in the first floor of all dwellings. Headers and trimmers of all openings over four feet square in first floor of dwellings shall be floor joists doubled or their equivalent and in any other floor if deemed necessary by the Inspector.

TRUSSES, ETC.

Section 16. All self-supporting walls and partitions above the first floor in any building shall be properly trussed. Beams carrying main or cross partitions in first floor shall be supported on piers or posts not more than eight feet apart. Trimmers in first floor over twelve feet in length shall be supported by a pier or post. All buildings shall be properly braced at the angles.

FLOORS, ETC.

Section 17. Every building hereafter erected or enlarged shall have all its parts of sufficient strength for their purpose. The minimum size of all floor joists in spans of over six feet, except under the attic floor, shall be two by eight (2 x 8) inches, spaced not over sixteen inches on centers.

Section 18. The openings at the floors, whether caused by ledgers or floor joists projecting above the sills, shall be stopped by pieces of wood not less than two inches thick, cut in tight or brick filling. In dwellings where floor joists supported on ledger boards, that portion of

the outside wall below the ledger forming a part of the basement wall, there shall be stops two inches thick cut in between studding on line with bottom of ledger. All boards which form any part of the frame of the building shall be nailed at each bearing with not less than three eight-penny nails, or the equivalent thereof.

Section 19. No building hereafter erected, altered, added to or repaired, that is to be finished in whole or in part, shall be lathed, plastered, or sheathed, until the builder or mechanic shall have notified the Inspector of Buildings to inspect the same and shall have received from said Inspector a notice in writing that the building is accepted. The Inspector of Buildings on receipt of a notice from the builder that any building or alterations, additions, or repairs to any building are ready for inspection, shall, as soon as possible, inspect the premises, but shall not accept the building until all the requirements of the ordinance as to frames, chimneys, fire stops, furnace or steam pipes, and all other parts of the construction have been complied with, and no building shall be occupied until accepted by the Inspector. The Inspector shall also require that all permanent piers or columns needed under girders, trimmers, etc., shall be in place before he accepts the building.

OPENING CUT IN PARTY WALLS, ETC.

Section 20. No opening or doorway shall be cut through a brick party or partition wall of any building without a permit from the Inspector; and every such doorway shall have a top, bottom and sides of stone, brick, iron, or concrete; shall be closed by two sets of wrought iron or metal covered doors (separated by thickness of the wall) hung to rabbeled iron frames or to iron hinges in brick or stone rabbets; shall not exceed ten feet in height by eight feet in width, and any other opening than a door way shall be protected in a manner * satisfactory to the Inspector.

In all new buildings, and hereafter in all buildings in existence, the installation of electric wires for light, power, heat, and signalling systems must conform with the latest National Electric code.

CHIMNEYS, ETC.

Section 21. All chimneys shall be built of brick, concrete, or stone and lined with terra cotta, or tile flue linings, except chimneys built of brick with walls eight inches thick. All brick chimneys shall be built of good mercantile hard brick and thoroughly laid in lime or cement mortar. All collars shall be either soapstone or metal, ventilated, and all smoke pipes passing through closets shall have ventilated air-space pipes. All steam pipes passing through floors and joists shall have metal sleeves around the pipe and shall be kept away from all woodwork. Brick flues starting from foundation walls shall rest

upon continuous support of metal or masonry extending to six inches below the ground.

Iron mantled bars or brick or stone arches shall be used over all fire places, range or grate openings, shall be at least eight inches thick and hearths or fire places shall be laid on brick arches or upon bars of iron supporting a bed of brick work.

No smoke pipe shall enter any flue at a less distance than twelve inches from the floor or ceiling or at a less distance than six inches from any woodwork whatever, unless the same be properly protected. No drain pipe or earthenware pipe of any kind shall be used for horizontal flues. All such flues shall be made of iron pipe laid in bricks and mortar on iron bars; or two galvanized iron pipes (one within the other) with no less than two inch air space between them, may be used for this purpose, also laid in brick when chimney thimbles enter flue, the woodwork in all cases shall be kept six inches all around the same.

Furnace and boiler smoke pipe shall be at least one foot below the beams or ceiling joists, unless the same are protected by metal or other non-combustible material, suspended at least two inches below the same.

Section 22. If any chimney, flue or heating apparatus shall, in the opinion of the Inspector, be dangerous or unsafe, he shall at once notify in writing the owner, agent or other person having an interest therein, and require him to make the same safe; which such party shall do at once. No woodwork of any kind shall be placed at a less distance than one inch from the outside brick work of the flue and in no case shall a nail be driven into the masonry of any flue.

GUARDS TO PIPES FOR SMOKE, HOT AIR, ETC., AND PROTECTION OF WOODWORK ABOUT THE SAME

Section 23. No woodwork shall be placed at a less distance than one inch from any flue and all pipe used or intended to be used to convey heated air, shall be cased with asbestos within four inches of woodwork.

FURNACES—HOW SET

Section 24. Tops of portable furnaces shall be at least twelve inches below any woodwork or the woodwork shall be protected by a tin shield suspended at least two inches below it.

REGISTERS—HOW SET, ETC.

Section 25. Registers connected with hot air furnaces, shall be set in non-combustible borders, at least two inches wide.

HOT AIR PIPES

Section 26. Furnace or other pipes conveying heated air be-

tween floors and in partitions shall be in cases with asbestos and before lathing or floored over.

FIRE PROOF FOUNDATIONS FOR FIRE PLACES, RANGES, ETC.

Section 27. Open fire places, set ranges, cooking ranges, set kettles and the like, shall have proof foundations, with fire proof hearth, extending not less than sixteen inches from the ashpit. No brick structure to contain fire shall be allowed on a wooden floor, in any building.

STEAM PIPES, ETC.

Section 28. Steam pipes shall be left at least one inch from woodwork or shall be protected by an incombustible ring or tube or rest of iron supports.

RANGE OR BOILER FLUES

Section 29. Set ranges or boiler flues shall be placed with brick or plastered upon the bricks up to the ceiling of the room in which they are set and no woodwork shall be placed on the outside thereof below said ceiling.

BOILER HOUSES, BOILER ROOMS, ETC.

Section 30. Set range or boiler rooms in establishments where inflammable materials are used, or where shavings or other highly inflammable materials are used for fuel, shall be enclosed in brick, stone or concrete walls, or iron studs filled with concrete.

Roofs or floors over such rooms or houses shall be made of iron, brick, stone or concrete arches or slabs, or if wood, shall be protected with fireproof tile, or plastered on iron laths or wire netting or covered with metal, and the doors of all boiler-rooms shall be iron or wood covered with metal.

The floors of rooms containing stationary boilers shall be made of incombustible material for at least five feet in front of boiler, and for such distance on rear and sides as may be required by the Inspector.

Wooden floors under portable boilers shall have close protection of incombustible material.

The provisions of this whole section shall apply to buildings already erected, if found necessary, and ordered, after examination of the premises by the Inspector of Buildings.

PENALTY FOR VIOLATION

Section 31. Whoever violates any provisions of the preceding sections shall be punished by a fine of not * less than twenty-five dollars (\$25.00) or more than one hundred dollars (\$100.00).

These building laws shall be considered as an amendment of and substitution for the present building laws, adopted in the year 1909.

A true copy attest:

George N. Green, Town Clerk.

Boston, Mass., June 8, 1922.

The foregoing by-laws are hereby approved with the exception of:

* 1, as indicated.

*10, as indicated.

*11, as indicated.

*20, as indicated.

*31, as indicated.

which are disapproved.

J. Weston Allen,

Attorney General.

Section 1 is approved except that the word "ordinances" in the concluding sentence thereof is stricken out and the word "by-laws" is inserted.

*Section 10 is approved except as to the concluding sentence thereof, viz: "Where concrete is used in the construction of the above-mentioned buildings, the walls shall be of such design and thickness as to conform to the building law of the City of Boston," which is stricken out.

*Section 11 is approved except that in the next to last sentence thereof, the clause, "suitable to the Building Inspector" is stricken out, and the word "suitable" is inserted so as to read "covered with a suitable material."

*Section 20 is approved except that, in the next to last sentence the clause, "satisfactory to the Inspector" is stricken out, and the word "suitable" is inserted, so as to read, "and any other opening than a doorway shall be protected in a suitable manner."

*Section 31 is approved except that the clause "less than twenty-five dollars" in the opening sentence is stricken out, and the words "for each offence," added at the end thereof.

PERAMBULATION OF BOUNDARY LINES BETWEEN MEDFORD AND STONEHAM

We, the subscribers, a committee from the City of Medford and the Selectmen of the Town of Stoneham, having met according to appointment on November 25, 1922, to perambulate the boundary lines between the said Medford and Stoneham, find the lines as follows, viz:

Beginning at corner 24, a rough granite monument with tapering and sloping top, marked M. S. W. I. standing at corner of Medford, Stoneham and Winchester, about 1500 feet northwesterly from Turkey Swamp reservation dam, thence South 67 degrees 01' East, 4261 feet to corner 25, the witness mark being a stone monument 13" x 13" in

section, and 4.5 feet high and marked as follows: M. on South West face S on North East face, and 1903 on East face, and set on shore of Spot Pond about 30 feet East of East line of roadway; thence South 63 degrees 13" East, 2786 feet to corner 26, a rough granite monument with wedge-shape top, marked M. S. No. 3, standing at an old stone wall which runs along the westerly side of the Stoneham road, and about 45 feet East of Fulton Street; thence South 74 degrees 01' East 2625 feet to corner 27, a straight split granite monument, maked M. S. 7 standing in Middlesex Fells near a large pile of stones known as "the Monument" or "Cairn" at the corner of Medford and Stoneham.

PERCY W. RICHARDSON, Alderman,
LEWIS H. PETERSON, Alderman,
EDWARD H. LARKIN, Alderman,
FRED R. CHARNOCK, City Engineer,
For the City of Medford.
WILLIE H. WHITE, Selectman,
LEMUEL W. STANDISH, Selectman,
For the Town of Stoneham.

TOWN MEETING THURSDAY, DECEMBER 7, 1922

Meeting called to order by the Town Clerk, and the warrant read for the same.

Charles A. Owen was chosen Moderator and sworn by Town Clerk. There being no quorum present, it was

Voted, To adjourn to meet in Armory Hall, Thursday, December 14, 1922, at 8 o'clock P.M.

ADJOURNED TOWN MEETING THURSDAY, DECEMBER 14, 1922

Meeting called to order by the Moderator.

Article 2. To see if the town will vote to appropriate the sum of Six Hundred Dollars from revenue not otherwise appropriated, for the installation of improved sanitary devices in the North, South, East, Center and Dean Schools, or take any action relative thereto.

Voted, To appropriate the sum of Six Hundred Dollars from Estimated Revenue Account for the installation of sanitary devices in the North, South, East, Center and Dean Schools.

Article 3. To see if the town will vote to appropriate the sum of Three Thousand and Seventy Dollars from revenue not otherwise appropriated, for the School Department, or do anything relative thereto.

Voted, To appropriate the sum of Three Thousand and Seventy Dollars from Estimated Revenue Account for the School Department.

Article 4. To see if the town will vote to locate electric street lights as follows: One at the corner of Lindenwood Road and Butler Road, and one on Butler Road near the residence of Earle B. Weeks,

and one on Central Street near the factory of the Vera Chemical Company, make an appropriation therefor or do anything in relation thereto.

Voted, That the installation of electric street lights at the corner of Lindenwood Road and Butler Road and one on Butler Road and one on Central Street, as called for in this article, be referred to the Board of Selectmen; any expense incurred to be paid from appropriation for Street Lighting.

Article 5. To see if the town will vote to appropriate the sum of Three Thousand Seven Hundred Twenty-Eight Dollars and Eighteen Cents (\$3,728.18) from revenue not otherwise appropriated for the following purposes:

Highways, one thousand four hundred dollars; Concrete Repairs, one hundred eighty dollars and eighty cents; Street Oiling, four hundred and seven dollars and eighty-five cents; Macadam Roads, one hundred and fifty dollars; Weights and Measures, forty-five dollars; Poor Department, sixty-three dollars and ten cents; Town Scales, seven dollars and fifty-eight cents; Trade Schools, seventy-five dollars; Soldiers' Relief, eight hundred dollars; Rifle Range, Practice, Co. F, 101st Engineers, M. N. G., four hundred sixty-three dollars and eighty-five cents; Street Lighting, one hundred thirty-five dollars.

Voted, To appropriate the sum of Three Thousand Six Hundred Twenty-eight Dollars and Eighteen Cents from Estimated Revenue Account for the following purposes:

Highways, one thousand three hundred dollars; Concrete Repairs, one hundred eighty dollars and eighty cents; Street Oiling, four hundred and seven dollars and eighty-five cents; Macadam Roads, one hundred and fifty dollars; Weights and Measures, forty-five dollars; Poor Department, sixty-three dollars and ten cents; Town Scales, seven dollars and fifty-eight cents; Trade Schools, seventy-five dollars; Soldiers' Relief, eight hundred dollars; Rifle Range, Practice, Co. F, 101st Engineers, M. N. G., four hundred sixty-three dollars and eighty-five cents; Street Lighting, one hundred thirty-five dollars.

Article 6. To see if the town will authorize the Boards of Health and Selectmen to have a survey of the surface drainage (by a competent engineer) from Van Tassel Tannery along the brook through Gould Meadow, following its course to the town line; appropriate money for such survey from revenue not otherwise appropriated. Said survey to be reported at the annual town meeting in March, 1923, for action on same.

Voted, To authorize the Boards of Health and Selectmen to have a survey of the surface drainage (by a competent engineer) from Van Tassel Tannery along the brook through Gould Meadow, following its

course to the town line, and appropriate the sum of one hundred and fifty dollars from Estimated Revenue Account for such survey. Said survey to be reported at the annual town meeting in March, 1923, for action on same.

Article 7. To see if the town will vote to lay a water main in and through Spring Street from the present main therein near the residence formerly of A. C. Christensen, southerly for a distance of 1500 feet more or less; raise and appropriate money therefor by sale of water bonds or otherwise; pass any votes or take any action relative thereto.

Voted, To lay a water main in and through Spring Street from the present main therein near the residence formerly of A. C. Christensen, southerly for a distance of 1500 feet more or less at an estimated cost of \$4,000.00 and appropriate the balance standing to the credit of Spring Street Main amounting to \$2,370.90, and the balance from proceeds of bonds hereinafter authorized to be sold, for the construction of the same; no work to be done or material purchased until a bond satisfactory to the Selectmen has been filed guaranteeing to the town an annual payment amounting to 8% of the cost of construction.

Voted, To authorize the Town Treasurer with the approval of the Selectmen to sell two water bonds of the denomination of \$1,000.00 each, the issue of which has been authorized by the town; the proceeds of which to be used as voted in the foregoing vote.

Voted, To adjourn.

PERAMBULATION TOWN LINES BETWEEN STONEHAM AND READING

We, the subscribers, Selectmen of Stoneham and Reading, pursuant to a notice duly given, met this thirtieth day of December, 1922, at a stone monument, at a point where the lines of Reading, Wakefield and Stoneham meet, and proceeded to perambulate the line between said Reading and Stoneham as follows, viz: We proceeded westerly from said point of meeting to a stone monument on Main Street, thence on the same course to a stone monument at the point where the lines of Reading, Stoneham and Woburn meet.

H. RAYMOND JOHNSON,
JOSEPH D. KNIGHT,

Selectmen of Reading.

WILLIE H. WHITE,
LEMUEL W. STANDISH,

Selectmen of Stoneham.

GEORGE W. NEWHALL,
CHARLES A. OWEN,
JOHN J. KENNEY,
Assessors of Stoneham.

Report of Board of Selectmen

To the Citizens of Stoneham:—

The Board of Selectmen respectfully submits its report for the year 1922, as follows:

TOWN FINANCES

A conservative review of the financial situation of the town at the present time furnishes ground for congratulation. At a time when most towns and cities are facing the fact of constantly increasing indebtedness necessitating advanced tax rates, Stoneham, on the contrary, can reasonably congratulate itself on the fact that it is reducing its indebtedness and has been in a position the past year to warrant a decrease in the taxation rate and has done this in the year now closed. A survey of the local situation shows that the finances of the town are on a wholesome and sound basis much more favorable than many or most of those nearby towns with which comparison has been made. With a taxable valuation in the aggregate of \$8,219,250 the net funded debt of the town, as shown by the figures of the Town Accountant, is \$161,750. Last year, with a valuation of \$7,725,620, the debt was \$187,000, showing a decrease in the year of \$25,250. In 1921 the tax rate was \$31 on the thousand and the rate for 1922 was \$29.60. The Board of Assessors have done some very commendable work in the past year in the re-assessment of values along the line of equalization. Anyone who will study valuations in this town in comparison with those of neighboring cities and towns must come to the conclusion that Stoneham's assessment percentage in relation to market values is much lower than that of any other town or city in this vicinity. Your Board feels that the work of the Assessing Board is along right lines.

The outlook for the future of the town in a business way is likewise encouraging. During the past year a great gain has accrued to the town industrially in the leasing of the Jones factory on Franklin street by a solid and substantial shoe manufacturing concern which has already moved here from Haverhill. The Hebert Shoe Company is with us, your Board hopes, to stay for many years. It was the good fortune of the Board to be able to welcome and encourage this enterprise in locating here and as the result of an investigation of the

standing and reliability of the company it feels sure that the citizens of the town will join with the Board in congratulating the new comers on their new location and wishing for them the largest success in their enterprise of still further increasing and upbuilding a business which has had many years of success in the past. Another welcome sign of larger business development is the addition which is being made to the Grover factory on Main street. This concern is one of our most prosperous and your Board gladly extends to them sincere congratulations on the fact that they have found Stoneham a good town in which to do business. Their continued success and prosperity is all to the good of the town and it gives peculiar satisfaction to note this substantial evidence of continued growth and prosperity.

These new developments as well as the general prosperity of the town's industrial element will in the very near future call for larger developments in the building line. There is at the present time a real and growing need of new homes for the people. This housing need is already quite acute and, following the law of supply and demand, it seems quite reasonable to expect a material addition to taxable values in this line in the very near future.

TOWN GOVERNMENT

A survey of the various financial and economic departments of the town government by the voters will, your Board feels, well repay the effort. Stoneham's system of town government is on the whole, sound and well organized. Particularly does the Board commend the good work and careful consideration of the needs of the town in the appropriation line by the Finance Committee. Their continued survey of the various proposals and propositions for expenditures has, in the past, been of inestimable value to the voters in town meeting assembled. Their recommendations are well considered and the fact that their suggestions are, from year to year, substantially endorsed by action of the town, is a testimony as to the value of the service they are continually giving by their good judgment. The Town Accounting system, under the able direction of Town Accountant George N. Green, warrants commendation and approval. At all times his books are open for inspection and examination and the State System of Accounting is, the Board believes, bearing good fruit as it is being exemplified by practical application in this town.

The administration of the year on behalf of the Board of Selectmen has been along well traveled lines with no great or markedly outstanding features to record.

SURFACE DRAINAGE

Perhaps the most trying and insistent feature of the past year

has been the great number of complaints that have come to the Board by reason of the lack of a system of proper surface drainage in the centre of the town. Many complaints have been made to the Board and a large number of investigations have resulted. The whole matter simmers down to the fact that there is no adequate plan, at the present time, of remedying conditions which are all too patent on examination. The centre area of the town needs to be considered in a comprehensive plan that will afford a basis for constructive work that will lead to definite results that will co-ordinate in the future development of a system of disposal of the natural watersheds which in the past have resulted in conditions which are altogether deplorable in property loss and which afford real reason for concern in the matter of public health and community welfare. With this purpose in view, and, as the result of action by the town, the Selectmen, in conjunction with the Board of Health, were authorized to expend a sum not to exceed \$300 to be applied to securing a competent engineer to draft a comprehensive plan of surface drainage for the centre area. After due consideration and careful investigation by your Committee it was finally voted to employ as Engineer Mr. Dana Edson Perkins, of this town, to do this work. Mr. Perkins comes very well recommended and has already begun the task set down for him. His instructions are to give a basic plan that will be adaptable for future additions and workable plans that will in the end lead to a complete and comprehensive development that will work out satisfactory in the years to come. Makeshift or piecemeal local efforts to remedy individual complaints are always unsatisfactory and wasteful. Your Committee felt that before any money was spent on this matter it would be much more wise to have all work that is to be done, along this line, based upon a plan that should lead to the co-ordination of the larger plans which are so apparently desirable. When these plans are ready it will then be up to the town to begin this work along well-established lines that will lead to the consummation so much needed of a complete and adequate system of surface drainage.

DEPARTMENT OF PUBLIC WORKS

It is always much more agreeable to commend than to criticize any town official and when the opportunity arrives to do that in a right way it should be done. Superintendent Cornelius J. Sweeney deserves commendation for his work during the year just past. His task is a very difficult one. The demands for improvement and for attention to detail are constant and increasing. If the town could afford to do it, the Board would like to see a much larger sum spent on the highways. The large number of articles which are appearing in the annual Town Warrants have, most of them, a real basis for attention and ap-

propriation. The appropriations for highway repairs and new construction are never adequate to the demand. Your Board feels that Superintendent Sweeney has done commendable work with the money at his disposal. During the past year his term of service expired and the Board had no hesitation in re-appointing him for another term of three years. He needs more money, for his work, but whether the town can afford to give it to him or not is a matter for the Finance Committee to consider and decide to recommend to the voters. During the past year he has done good work in the macadamizing of Pleasant Street in accordance with the vote of the town. The work was well done. There should be a further extension of this work so as to complete the whole length of the street. The recent heavy snow removal costs have been mandatory to him and he has been obliged to spend an unusually large amount in snow removal to the end of making the streets and walks passable. That he has done good work in this line is patent to all. It has cost money but it was absolutely necessary and your Board can only congratulate the town that the extra money was so well spent. He has, in accordance with the vote of the town, added a new scarifier which was much needed and is doing good work in his department.

STREET SIGNS

The new metal street signs which have been installed by vote of the town are well adapted to the town's needs. They are strong, of metal construction and well adapted for long service and the only complaint your Board hears about them is that they are not more generally installed. There should be an additional sum voted for the extension of this improvement the coming year.

RECOGNITION OF BRAVERY BY RESCUE WORK

The following resolutions were unanimously adopted by the Board in recognition of the brave acts of citizens of the town at the time of the recent Sewer Accident whereby two workmen in the Public Works Department had a narrow escape from death by being overcome by sewer gas:

Resolutions

WHEREAS, in the recent serious near tragedy in the Department of Public Works of the Town of Stoneham, whereby two faithful employes of the town were in imminent danger of losing their lives by reason of being overcome and rendered unconscious by sewer gas. And

WHEREAS, Superintendent Cornelius J. Sweeney, Policeman John C. Nelson, Clifford Kehoe, Raymond Stone and Dennis Conway bravely and unhesitatingly performed a noble deed of rescue at the imminent risk of their lives. And

WHEREAS, by their heroism they have won the approval and admiration of the citizens of the town, and at the same time set a high mark of devotion to their fellow men. Now, Therefore:

BE IT RESOLVED, That the undersigned, Selectmen of the Town of Stoneham in official session, do hereby publicly express their sincere and heartfelt appreciation of the courage and timely efforts of the above-named Cornelius J. Sweeney, John C. Nelson, Clifford Kehoe, Raymond Stone and Dennis Conway, in saving human life.

RESOLVED, That we also return thanks to Mrs. Annie J. Hamill for special services rendered by telephone and care of the injured men, to the Woburn Police Department and all others who rendered service on this occasion.

RESOLVED, That this memorial be spread upon the town records, printed in the annual Town Report, published in the local press and a copy be sent to each and all of the above-named parties concerned.

RESOLVED, That we officially and in behalf of the Town of Stoneham do express our thanks, and congratulate them on the successful outcome of their efforts. "Greater love hath no man than this that he lay down his life for his friend." To all intents and purposes they and each of them offered their lives for their fellow men.

POLICE SERVICE

The task of policing the town is an ever-growing necessity. Under the faithful direction of the efficient Captain of Police Green the work of this department has been well and adequately attended to. The force is small in comparison with the demands on it for service. The Board has recently promoted Officer O'Brien to the position of Sergeant of Police, a well-deserved and popular advancement for a faithful officer. The tremendous growth of automobile traffic through Main street has thrown upon the Police extra work which has taken a large and ever-increasing share of their attention. To safeguard and care for crossings and the main highway is a duty which must be attended to. The question of how to do this work adequately and at the same time to attend to the many details of necessary policing the town makes it apparent to all that, in the very near future, it will be necessary to add one or two additional men to the force. During the past year the danger to school children in crossing the congested Main street, on their way to and from school, has been brought to the attention of the Board by the School Committee and the Board, realizing the need of prompt action in the matter, voted to employ two part-time traffic guardians for service at the north and south ends of Main street. This was done as an emergency measure, justifiable, the Board decided, by the danger exigent.

Whether this extra work shall be continued in the future will depend upon action by the town in connection with an enlargement of the regular force or the employment of special guardians as has been done in the past few months.

POLICE SIGNAL BOXES

Perhaps one of the greatest needs of the town to assist the Police in their work would be the installation of a system of Police Signal Boxes. Your Selectmen as a Committee in conjunction with other citizens of the town have recently had a demonstration of the Gamewell System of Police Signal Boxes and that demonstration has convinced the Committee that with such a system added to the Police equipment it would greatly add to the efficiency of the Police work and result in greater security for life and property. The Committee would recommend the installation of a Police Signal System in the very near future.

TRAFFIC BEACONS

During the past year the Board accepted a proposition from the American Gas Accumulator Co. to install an illuminated Traffic Beacon on the Main street, opposite the Town Offices. This Beacon proved so desirable an addition to the safety of traffic in the square the Selectmen voted to buy one Traffic Beacon at an expense of \$275. The first cost is the most appreciable item. The cost of maintenance is but trifling being a matter of only a dollar or two per month. The lights in the beacon flash continuously day and night and need no attention. So well has this expenditure demonstrated its value that your Board recommends the addition of at least one more of these beacons at the north part of Main street.

FIRE DEPARTMENT

Stoneham's Fire Department is a thing for pride and commendation. During the past year the new Seagraves Motor Pump has been put into commission and has demonstrated its usefulness and adaptability to the end of securing the best apparatus possible for fire protection. This Department, under the direction of Chief Smith, is admirably housed, splendidly equipped with but one exception. The Department needs a new Hook and Ladder Motor Truck, and your Board believes that the time has come now to add this new piece of apparatus to take the place of the old horse-drawn truck which has quite outlived its usefulness and is today a menace to the men who are compelled to man it. The town should give the fire-fighters the best tools possible to work with and this piece of apparatus would round out and complete an equipment second to none for towns of the size of

Stoneham. The town cannot err in giving the fire fighters ample and complete facilities for the saving of life and property.

WATER DEPARTMENT

Your Board feels that the largely increased income that is accruing to the town in receipts from water rates will warrant some reduction in the charge of excess water. The present rate of excess charges is \$12 for excess of 32,000 feet per year. The Board recommends and will order a reduction to \$10 for amounts used in excess of 32,000 feet.

THE VAN TASSEL WATER RATES

It is a real satisfaction to the Board to report to the town that the water rates arrearages which were reported last year have all been paid up by the Van Tassel Company with an additional sum of \$1,000 accruing to the town as interest charges. The Board congratulates the Company and the town on this happy outcome of this matter.

STREET LIGHTING

The contract for Street Lighting has expired by limitation and as the town now comes under the system of equal rates for all towns in the Metropolitan District no new contract will be possible.

TOWN HOUSE CEILING

In accordance with a vote of the town a new steel ceiling has been installed in Armory Hall. The work has been well done. The Armory needs painting inside and out and the work should be done at an early date.

BILL BOARDS

The Selectmen are very loath to grant new permits for advertising Bill Boards along main streets. There is a bill in the present legislature to still further restrict the granting of such permits. The present law is far from adequate to restrict this disfiguration of our landscape as the Board feels should be done. As the law now stands it is not optional with the Board to refuse permits unless it can show material loss to abutters and property holders. Asthetic objectors find that their arguments for town beauty and improvement have no standing as objections. Your Board has, however, in the past year, succeeded in having transfers made of present locations from one part of the town to less objectionable locations. If the new law will give the Board power to do so it feels that it would be justified in refusing all future petitions for new locations.

GARAGES AND FILLING STATIONS

The very large number of petitions presented to the Board for the erection of private garages and public service and filling stations have taken a large share of the attention of the Board. In all cases of petitions for private garages it has been the policy of the Board to grant permits asked for where they conform to statutory requirements. In the matter of filling station permits the Board feels that the requirements of traffic are now reasonably well provided for. The new filling station being built by the Colonial Co., on the corner of Main and Middle streets is being erected at a cost to approximate \$35,000. It will be a shining and notable addition to that section of Main street and the Board feels that its action in granting this location will be amply justified by the result attained on completion.

PETITION FOR BOULEVARD CONSTRUCTION

The revival of the Petition for the construction of a State Boulevard, which has been introduced in the Legislature on petition of your Board, is the revival of a project which has long been in contemplation by the citizens of the town. As far back as the year 1914 this matter was first begun in the Legislature on petition of the Selectmen of Stoneham and was ably advocated by Mr. Representative Newhall at that time. The petition now, as then, contemplates the construction of a State Boulevard beginning on South Street near Spot Pond, and running near to Doleful Pond and thence continuing east of the town to Crystal Lake in Wakefield and thence joining on to the Quannapowitt Parkway in Wakefield to connect with the Lynn Boulevard to the North Shore and also to open a new route to Andover, Lawrence and the North. The argument in behalf of this project is all to the good of the town of Stoneham, your Board believes. The construction of this boulevard has the tacit support of the Metropolitan Parks Commission and is largely designed to relieve the congestion in Main street, now so apparent to all. If it is built it will open up for development to the east of the town a large section of farm land for building purposes. It will largely enhance the material value of the town's assessment property and be a great stimulus to future development in building in a section which is now of little value to the owners or the town. The matter is now under consideration by the Legislature.

TOWN COUNSEL

The town has been ably and faithfully served in its legal department as it has for many years by its Town Counsel, H. H. Richardson, Esq. It is of great advantage to your Board, and the other town

officials, to have at their command the legal advice of so able and capable an attorney.

TRANSPORTATION PROBLEMS

At the annual town meeting in March, the Selectmen, with two other citizens, were appointed a Committee to bring before the Eastern Massachusetts Street Railway Co. the question of car fares with an effort to secure the adoption of a single unit of car fares within the town's limits. At the same time a Committee was chosen, on the initiative of the Stoneham Chamber of Commerce, to inquire into the matter of better accommodation and service on the Steam Railroad. The two Committees have been taking co-ordinating action to the end of securing results in the Street Railway matter. As a result of the activities of the committee, there have been numerous conferences with officials of both the Eastern Massachusetts and the Boston Elevated Street Railway Company. As a result of these efforts the Eastern Massachusetts Co. has finally conceded the justice of the Committee claim for one fare within the town limits and have put in force a more liberal scale of fare zones which practically follows the lines of the demands of the Committee. For this gain the Committee is grateful and feels that the result attained has well warranted the effort made. There still remains, however, yet further matters of improvement in service which should be followed up and brought to a successful issue, if possible. Among these is the proposition to reopen the discontinued line to Reading via North Main street. The Committee is given reason to believe that, with the right kind of effort, this desirable end may be attained in the near future. For that reason and because the Committee feels that it should be the policy of the town to have some one who will look after these matters in the future, it recommends that the Committee be given further time for their endeavors to secure even more concessions than have rewarded their efforts in the past. Unless the town pushes aggressively in behalf of better service and concessions your Board is quite sure that the Companies will be quite willing to let matters continue in statu quo on the theory that unless some one kicks the town must necessarily be getting good service. This is not so. The town needs and ought to have, much better service at the Sheepfold. We would like to see the Stoneham line operated under one management from Sullivan Square to Stoneham Square. There is a possibility that if the town is persistent and aggressive enough both of these desirable ends may be attained.

JURORS DRAWN

Henry T. Mellett, Wallace A. Leavitt, Charles F. Dinsmore, Martin

McDonough, Charles F. Blodgett, Arthur C. Jones, John J. Cody, Lemuel P. Cochran, George Y. Hutchins, Frank E. Parks, Jeremiah M. Moulton, Harry F. Potter, Fred L. Wilkins, Willie H. White, Amasa A. Holden, Edward J. Feeney, Michael Connors.

Respectfully submitted,

WILLIE H. WHITE,

LEMUEL W. STANDISH,

LEANDER V. COLAHAN,

Selectmen of Stoneham.

Report of Town Counsel

To the Honorable Board of Selectmen,
Stoneham, Massachusetts.

I have the honor to submit to you my twelfth annual report as
Town Counsel, for the year ending December 31, 1922.

COURT CASES

Town of Stoneham vs. Commonwealth (Spot Pond case)—Middlesex Superior Court; final determination of the issues involved in the report of the Commissioners, still pending. (Set down for argument at January, 1923, term.)

Cannon vs. Town of Stoneham—Middlesex Superior Court, action of tort, ad damnum \$5000; for alleged personal injuries sustained on Warren street; pending.

J. B. McEchern et als vs. Town of Stoneham, its Selectmen and Town Treasurer—Supreme Judicial Court sitting in Equity in and for the County of Middlesex; bill of complaint brought by certain tax payers under the statute as to the appointment of Herbert E. Plummer as a permanent fireman in the Fire Department; pending.

Frost vs. Town of Stoneham—Middlesex Superior Court, Equity; no report filed by Master appointed to hear evidence; pending.

Henry M. Hurd, vs. Town of Stoneham—Fourth District Court of Eastern Middlesex, action of tort, ad damnum \$1000 for damages to automobile and personal injuries from alleged defect in highway on Wright street; pending.

Town of Stoneham vs. B. A. Flaherty—Fourth District Court of Eastern Middlesex; action of contract, to recover money expended by town for hospital bill; judgment entered for town and judgment satisfied.

CLAIMS SETTLED

Ernest C. Alward vs. Town of Stoneham—claim for damage to automobile, July 4; settlement effected in sum of \$75 from town liability insurance, and release executed.

Mildred Barton vs. Town of Stoneham—claim for property damage by reason of defect in Main street; settlement effected in sum of \$32.40, and release executed.

W. L. Fletcher vs. Town of Stoneham—claim for alleged personal injuries to minor child by reason of falling ice; settlement effected and release executed.

William H. Breen vs. Town of Stoneham—claim for land damages in Pond street relocation—settlement effected in sum of \$188.78 and deed of release received and recorded.

Town of Stoneham vs. Van Tassel Tanning Company—claim for arrearages in water supplied by town; payment made in full.

CLAIMS (Pending)

Jennie Moore vs. Town of Stoneham—statutory notice served alleging personal injuries sustained from defect in sidewalk on Gould street.

Annie Doherty vs. Town of Stoneham—claim for land taken for Lincolnville sewer; offer of settlement made by town, not accepted.

Maurice H. McKenna vs. Town of Stoneham—claim for property and land damages.

Delia Dufresne vs. Town of Stoneham—statutory notice served alleging personal injuries sustained from defect in sidewalk on Wright street.

Annie M. Murphy vs. Town of Stoneham—statutory notice served alleging personal injuries sustained from defect in sidewalk on Hillside avenue.

George E. Bennett vs. Town of Stoneham—claim for damage to automobile from alleged defect on Main street.

During the year numerous matters have been referred to me as Town Counsel, to which I have given my careful attention.

Again an effort was made in the 1922 Legislature to secure the repeal of the tax law under which the town has assessed and collected taxes on the property of the New England Sanitarium since 1914. This attempt failed and the outcome was a decisive victory for the town in this matter, which involved several hearings and numerous conferences with eminent counsel representing the New England Sanitarium, The Massachusetts General Hospital, and the Town of Belmont.

The Town Counsel was given valuable assistance by our Senator and Representatives from this district, and also from former Rep. Arthur N. Newhall. It is not likely that the constitutionality of the 1914 act will again be attacked. The New England Sanitarium can only hope to escape taxation by coming within the provisions of this law.

On several occasions, at the request of your Honorable Board, I have attended hearings before various Boards and Commissions, Legislative Committees, etc., on matters affecting the welfare of the town.

Routine work has comprised drawing legal documents, including

contracts, bonds, agreements, and releases; rendering opinions and reports on various matters, and regular attendance at Board meetings.

I thank your Honorable Board and the other town officers for co-operating with me in the conduct of the legal department.

Respectfully submitted,

HERBERT H. RICHARDSON,
Town Counsel.

Report Sealer Weights and Measures

To the Honorable Board of Selectmen:—

Gentlemen:—During the year just passed the work of the Sealer of Weights and Measures has been considerably increased, owing to the installation of new gasoline filling stations; each one of which means several hours of extra work.

The coming year will see more of them and some new equipment must be purchased in order that the work may be handled more rapidly; otherwise it will be impossible to complete the rounds during the year.

The abolishing of all standard weights per bushel for vegetables and fruits has caused considerable confusion among the dealers and the public and the public is hereby reminded that the dealer can no longer sell a bushel or a peck of fruits or vegetables. He is required to sell a definite weight or count for a stated sum.

A statement of the work for the year 122 follows:

	Adjusted	Sealed	Non-Sealed	Con-demned
Platform scales over 5,000 lbs.		4		
Platform Scales under 5,000 lbs.	2	7		
Counter Scales	1	14	1	
Beam Scales	1	14		
Spring Balances	1	37	1	4
Computing Scales	3	20	1	1
Prescription Scales		2		
Weights, Avoirdupois	6	108		
Weights, Apothecaries'		46		2
Dry Measures		5		
Fuel Baskets		4		
Liquid Measures		74		4
Oil Measuring Pumps	4	17		2
Yard Measures		30		
Leather Measuring Machine		2		
Total	18	384	3	13

Respectfully submitted,

J. ALGERNON FORBES,

Sealer of Weights and Measures.

Report Engineers Fire Department

To the Honorable Board of Selectmen:

For the year ending Dec. 31, 1922.

There have been 66 bell alarms, of which 6 were false and 30 still alarms. Seven thousand two hundred feet of water hose, 1,313 gallons of chemical mixture, and 350 feet of ladders have been used at fires.

Value of property endangered by fire	\$145,641.95
Insurance thereon	117,700.00
Estimated loss	9,750.84
Insurance paid	6,806.82

These figures do not include five fires on which we have not yet received a report from owners.

We wish to again call the attention of the citizens of the town to the advisability of taking some action toward the purchase of a motor ladder truck. The horse-drawn truck now in use has been in service more than 41 years, and cannot be expected to last much longer at the best. The horses which draw it are often a mile or more away from the station when an alarm is sounded, which handicaps the department badly if ladders are needed when they arrive at the fire, and is likely to cause a much larger loss than would otherwise occur; and we strongly recommend that action be taken at the annual meeting in March, to complete the motorization of the department.

We wish to thank your Honorable Board for the co-operation and encouragement given us; also the Police Department for assistance rendered. We would also commend the officers and members of the Fire Department, for the faithful performance of their duties.

ALBERT J. SMITH,
JOSEPH TANSEY,
LOUIS F. BRUCE,

Engineers Fire Department.

Report of Chief of Police

To the Honorable Board of Selectmen:

Gentlemen:—I submit the following report of the Police Department for the year ending December 31st, 1922.

The regular men of the department are Captain Sumner H. Green, Patrolmen John G. O'Brien, George E. Johnson, Dennis L. McKinnon, John C. Nelson and Peter F. O'Toole.

Number of arrests	237
Males	229
Females	8
Minors	6
Residents	108
Non-residents	129

Causes of Arrest

Adultery	2
Assault and Battery	22
Breaking and Entering	1
Concealing Leased Property	1
Drunkenness	91
Disturbing the Peace	3
Insane	2
Keeping Unlicensed Dog	2
Larceny	9
Manslaughter	1

Defective Sidewalks	1
Defects in Electric Light Lamps	142
Defects in Water Pipes	2
Defects in Gas Pipes	1
Detailed for Public Assemblages	469
Dogs Killed	10
Fire Alarms Given	1
Lanterns in Dangerous Places	15
Lost Children Cared For	16
Notices to Delinquent Dog Owners	125
Officers at Fires	19
Search Warrants Served	8
Value of Property Reported Stolen	312.50
Value of Property Recovered	63.50
Amount of Fines Imposed	1818.
Number of Prisoners Cared for in Lockup	148
Accidents and Sickness Treated in Emergency Room	5
Automobile Used 238 times, miles run	2438
Telephone Calls answered from Station	2238
Sale and Exchange of Motor Cars registered	221

In General

The large increase in the number of motor vehicles, and the laws dealing with their operation and sale, as well as kindred laws relating to traffic and the parking of vehicles, has forced upon us a line of duty and responsibility increasing each year.

To give reasonable protection to the traveling public I would respectfully recommend that another officer be added to this department.

In the past year there was reported 77 accidents, we were called upon to either convey some to their homes or hospitals; if the department could have a larger car constructed to carry a stretcher it would be of great assistance.

The car we now have has done good service for over five years but would not go through another season without an unreasonable expense for repairs.

In submitting my report, I wish to thank your Honorable Board for the advice and co-operation given in the performance of my duty the past year. I also wish to thank the officers for their faithful service to the department, and the many citizens who have assisted us.

Respectfully submitted,
SUMNER H. GREEN,
Capt. of Police and Lockup Keeper.

Report of Inspector of Animals

To the Honorable Board of Selectmen.

Gentlemen:—I herewith submit report of inspection of animals for the year ending Dec. 31, 1922.

Number of cows	287
Number of swine	95
Number of young cattle	33
Number of bulls	6
Number of barns	55
Number of sheep	2
Number of dogs killed	16
Number of dogs quarantined under observation for rabies	12
Number of dogs biting children	7

Respectfully submitted,

CHARLES OTIS HUNTER,

Inspector of Animals.

Report of Building Inspector

December 31, 1922.

To the Honorable Board of Selectmen.

Gentlemen:—I herewith submit a report of Inspector of Buildings for the year 1922.

Applications for permits to build	164
Permits granted	163
Permit not granted	1
Dwellings for one family	26
Dwellings for two families	1
Garages	75
Additions and alterations	47
Stores and storehouses	7
Stables	1
Poultry houses	5
Club house	1
Estimated cost of new work	\$299,680.00

Respectfully submitted,

ALBERT J. SMITH,

Building Inspector.

Report of Police Signal Committee

January 31, 1923.

To The Honorable Board of Selectmen
and Finance Committee, Stoneham, Mass.

Gentlemen:—We, a committee appointed to ascertain and report as to the needs of the police department, beg to submit for the consideration of the Board of Selectmen, Finance Committee and town voters of Stoneham, the following:

That, upon investigation we find the police department is in need of signal facilities with which to carry on its work to the best interest of the town citizens.

In view of our observations, we recommend that favorable consideration be given to the matter of procuring, for the use of the police department, an adequate standard police signaling system of the kind that will furnish the most complete and reliable service.

And to that end that there may be placed before you authentic information in detail as to the cost and as to what such a system comprises, we have obtained from a competent Gamewell Company signal engineer of Boston, a complete layout and specified list of suitable apparatus, with estimated price on a system adequate to our present needs, which layout, estimate, etc., is attached hereto as a part of this report.

All of which is respectfully submitted,

Yours very truly,

GEORGE P. HAMILL,

CHARLES W. EVANS,

Committee.

January 8, 1923.

To Mr. Charles F. Buck, Mr. George P. Hamill,
Mr. Charles W. Evans, The Hon. Committee, Stoneham, Mass.

Gentlemen:—Agreeable to your wish we are pleased to hand you herewith a list of apparatus, and estimate of cost for a modern police signaling system such as will be suited to the present needs of the Police Department of the Town of Stoneham. To which system can be added from time to time such additions as are necessary to meet the growing demands of the town. As follows:

One (1) headquarters switchboard and police desk equipped with

telegraph and telephone sending, receiving and recording sets; the switchboard to be equipped with two (2) patrol box circuits, with an ultimate capacity for six (6) circuits, each circuit capable of carrying twenty-five (25) boxes. The switchboard shall also be equipped with two (2) re-call bell-light circuits and have an ultimate capacity for eight (8) re-call circuits. And the desk shall also carry the necessary telephone set, testing panels, keys, instruments and switches for properly handling the service contemplated by this estimate. There is to be one (1) recording set to consist of a register for recording signal numbers from the patrol boxes; a time and date stamp for automatically stamping the exact time of the receipt of all signals upon the record register paper as it comes from the register; a take-up reel for automatically coiling up the register paper.

There is to be mounted and carried in the desk one (1) motor-driven signal transmitter for sending our pre-arranged signals to the various patrolmen. Six (6) transmitter wheels for selecting and signaling to individual patrolmen. And there shall be the necessary amount of best type of common battery for properly installing the service, with suitable ventilated container for same.

There are to be five (5) three-call, police patrol signal boxes for transmitting to police headquarters, duty reports, emergency reports and wagon-call signals, and telephone signals. Three (3) re-call stations. Each station consisting of a fresnel lens flashlight combined with a ten-inch bell metal gong, known as the bell-light, adapted for signaling effectively under all conditions. Three (3) polar relay switches, enclosed in weather-proof iron case, known as controllers for manipulating the re-call stations from police headquarters. Three (3) bell-light iron, mounting fixture, extension arms.

There shall be $1\frac{1}{2}$ miles of best four wire construction, and $1\frac{1}{2}$ miles of best two wire construction, with the necessary protectors, piping, etc.

The above can be furnished, at this time, all completely installed ready for operation for the sum of five thousand eight hundred and ninety dollars (\$5,890.00). It being understood that the town of Stoneham will furnish free rights to occupy the present poles and buildings throughout the town for installing the wire circuits and for mounting the various boxes and instruments.

Respectfully submitted,

THE GAMEWELL COMPANY,

Police Signaling Dept.

A. D. Wheeler, New England Agent

F. M. Tiffany, Eng'r and Representative,

by E. E. Salisbury.

Report of Supt. Public Works

To the Honorable Board of Selectmen:

I herewith submit my annual report for the year ending Dec. 31, 1922.

During the past year the labor situation improved and there was at all times enough men available to carry on the work.

No timekeeper or foreman being employed, the Superintendent has kept time and supervised the work. Every effort has been made to keep within the appropriations voted at the Town Meetings.

HIGHWAYS, CATCH BASINS, DRAINS, ETC.

As usual in the Spring the streets were gone over with the road machine, ruts filled in, loose stones removed, and put in as good shape as possible under the existing conditions.

Several drains that had become clogged with roots, etc., were taken up and relaid. A new ten-inch corrugated iron drain and catch-basin were installed at the corner of Avon and Myrtle Streets.

MACADAM ROADS

Macadam roads were repaired where it was found necessary, re-covered with a bituminous material, pea stone and sand.

PLEASANT STREET MACADAM

This street was macadamized from Franklin Street to Summer Street.

STREET OILING

All streets were oiled as voted at the Town Meeting with the exception of Lincoln Street. Streets were also oiled as petitioned for by the abutters. I would recommend that all accepted streets be oiled, and an appropriation made therefor.

GREEN STREET REPAIRS

Green Street was repaired from Spring Street to Myrtle Street with gravel.

BELLEVUE ROAD

This street was macadamized from the existing macadam to the Wakefield line.

WAVERLY STREET

This street was scarified, re-shaped and a coating of oil applied. During this work the main axle of the steam roller broke, thereby delaying the work while a new one was ordered from the factory.

WILLIAM STREET

William Street was treated in a like manner, making this street in fairly good condition.

ELM STREET REPAIRS

Elm Street was scarified and re-shaped, some new material added, and the entire surface treated with a bituminous and asphaltic oil.

UNION STREET

A cinder walk was constructed on the southerly side of this street and covered with a coating of stone dust.

MAIN STREET WALK

A cinder walk was constructed on the easterly side of Main Street from Summer Street to Peabody Road, and covered with a coating of stone dust.

MAIN AND GERRY STREET WALKS

A concrete walk was constructed at this corner abutting the property of John Baduvasis.

MAIN STREET GRANOLITHIC WALK

A granolithic walk was constructed on the southerly side of Main Street from Peabody Road abutting the property of C. A. Rogers and J. B. Alley.

SNOW AND ICE

During the past year the usual amount of snow was taken care of; icy walks necessitated a lot of sand being used.

CONCRETE REPAIRS

This work was let out by contract under the supervision of the Superintendent and repairs were made where it was found necessary. There were 3147 sq. yds of old work and 488 sq. yds. of new walks repaired.

STREET SIGNS

During the past year there were 54 metal street signs erected. These signs are set on an iron standard and a cement base.

STREET RAILS

Street rails were repaired and replaced in various parts of the town where they had been broken or were missing.

WATER MAINTENANCE

Much trouble was encountered during the year by leaks in both the supply mains and private services, which required digging up and, in some cases, replacing new services. There were 21 new services installed during the past year.

CHESTNUT ROAD WATER

A six-inch main was installed in and through this street from Maple Street to the property of Mr. Frank Flower.

WHIPPLE AVENUE WATER

A six-inch main was installed in and through this street a distance of 200 feet.

SUMMER STREET WATER

A two-inch lead-lined iron pipe was installed a distance of 160 feet southerly toward Gould street, replacing the old 1-inch main that had become very porous.

BENTON STREET WATER

A six-inch main was installed in and through this street from Main Street to Warren Street, replacing the old two-inch pipe that had become clogged and full of rust.

HYDRANTS

During the past year several inspections were made of all hydrants, several being found unfit for use and were replaced by new ones.

WEST HANCOCK STREET HYDRANT

A new hydrant was installed near the property of Mrs. Annie Doherty on this street.

SEWER MAINTENANCE

During the year, the sewers were cleaned out several times and many roots and other foreign matter removed. No serious trouble was encountered in the system during the year.

SUMMERHILL STREET SEWER

A sewer was constructed in and through this street, a distance of 300 feet. Much ledge was encountered in the construction of this sewer which necessitated a lot of drilling and blasting.

VACATIONS

During the year the following men who had worked the required number of weeks had two weeks' vacation: I. Berube, D. P. Conway, Eugene Doherty, John Flynn, M. Flynn, J. Magner, Martin McCormack, P. J. Regan, R. L. Stone.

EMPLOYES OF THE PUBLIC WORKS DEPARTMENT

The following is the list of names of men employed by the various departments under my supervision, during the past year, and the amount each one received:

J. Andrews	\$ 132.00	J. Keefe	216.13

C. Pitkovitch	18.00		

In conclusion I desire to take this opportunity to express my appreciation and thank your Honorable Board for your advise and assistance and for the co-operation given me as Superintendent by the employes of the Department in the faithful performance of their duties.

Respectfully submitted,

CORNELIUS J. SWEENEY,

Superintendent of Public Works.

Report of Board of Health

To the Citizens of Stoneham:

We herewith render our report for the year 1922.

The work of the board during the past year went on in a commonplace way with every detail receiving its attention.

In July 100 persons petitioned our Board for relief from the mosquito nuisance arising from conditions in the rear of Van Tassel Tannery and Hotel Belmont. Dr. Kerrigan and Mr. Holmes of the State Department of Health reported that adequate drainage by the town was the best solution of the problem. An article was inserted in the warrant for a Special Town Meeting held December 14, 1922, and it was voted, To authorize the Boards of Health and Selectmen to have a survey of surface drainage (by a competent engineer) from Van Tassel Tannery along the brook through Gould Meadow, following its course to the town line, and appropriate \$150 from Estimated Revenue Account for such survey. Said survey to be reported at the annual town meeting in March, 1923, for action on same. At a meeting of the joint Boards of Health and Selectmen, Willie H. White was chosen chairman and George A. Hinchcliffe, Secretary-Treasurer. Dana E. Perkins, 127 Franklin street, was given the contract for the survey. Compensation, \$150.00.

An epidemic of mild scarlet fever with no fatalities at the close of the year caused some concern to the school authorities, who met with the Board of Health; parents were appealed to strictly observe the Quarantine Regulations in Scarlet Fever Cases, and an immediate running out of the large number of cases followed.

New Board of Health regulations (drafted by the State Department of Public Health), and approved by the Attorney General, with a \$100.00 fine penalty have been adopted by our Board, November 20, 1922. We are thus one of the first towns of our size with strictly up-to-date Health Regulations and legal power to enforce them. All of the regular police have been appointed health officers to enforce quarantine and police regulations of the Board.

We asked for appropriations of \$3,000.00 for removal of ashes, and \$1000.00 for collecting the garbage last March, and got \$2,500.00 for the ashes and \$750.00 for the garbage. We made the best contract we

could with the money at our disposal. Result—Hamilton was unable with his equipment (one team) to meet Winter requirements, poor service followed in November and December, and we were three weeks behind on removals. Fortunately we were able to get Mr. Hamilton to transfer his unexpired contract over to Mr. Frank Bowser, 38 Maple street, he, Bowser, agreeing to put on two or three extra teams. We feel that the garbage appropriation should be greater in order to secure better service.

The care of the Comfort Station has been added to our generous supply of duties. We confess that its cleanliness and sanitary condition has not been all that we desired the past year. Mr. Albert Smith as custodian has recently cleaned it and improved its condition in the latter part of the year. We will need an appropriation for renovation, including re-painting, etc.

We would recommend a full time health officer to carry out the health regulations, which are constantly increasing.

We are indebted to Town Counsel Richardson, our Agent, George N. Green, and the Visiting Nurse for valuable co-operation during the year.

Statistical reports will be found under Agent of the Board, Milk Inspector, and Inspector of Plumbing.

Respectfully submitted,

JOSEPH H. KERRIGAN, M.D.,

GEORGE A. HINCHCLIFFE

LAWRENCE E. DOUCETT

REPORT OF THE AGENT OF THE BOARD OF HEALTH

Stoneham, Mass., Jan. 1, 1923.

To the Board of Health:

Gentlemen:—I herewith submit the following report for the year ending December 31, 1922.

Number of contagious diseases reported	186
Chicken Pox	7
Diphtheria	28
Measles	5
Mumps	3
Scarlet Fever	93

GEORGE N. GREEN, Agent.

Stoneham, Mass., Jan. 1, 1923.

To the Board of Health, Stoneham, Mass.

Gentlemen:—I submit the following as the annual report of the Plumbing Inspector for the year ending December 31, 1922.

Number of applications received	98
Number of permits granted	98
New buildings connected with sewer	11
Old buildings connected with sewer	7
New buildings connected with cesspool	5
Sinks installed	85
Water closets installed	93
Trays installed	41
Lavatories installed	88
Bath tubs installed	67
Traps installed	5

Pressure boilers installed	39
Refrigerators installed	3
Dental chair connected	1
Slop sinks installed	4
Shower baths installed	2
Drinking fountains installed	12
Urinals installed	1

Total number of fixtures installed 464

Respectfully submitted,

ANDREW J. BENNETT,

Plumbing Inspector.

To the Board of Health.

Gentlemen:—I herewith submit my report as Milk Inspector for the year ending December 31, 1922.

There has been nothing in the year just passed that is worthy of special mention. The work of the Inspector has been only of a routine nature.

The local milk industry is on a more prosperous footing than for some years past. I am glad to say that in view of these conditions, has come a better housing and handling of both cattle and milk.

DETAIL OF RECORDS AND ACCOUNTS

Number of licenses granted (58 at 50 cents) \$29.00

BUSINESS DESIGNATIONS

Milk—Groceries, stores, restaurants, etc. (31 at 50 cents) 15.50

Milk—Producers, wagon dealers, etc. (18 at 50 cents) 9.00

Oleomargarine (9 at 50 cents) 4.50

Total \$29.00

Respectfully submitted,

LAWRENCE E. DOUCETT,

Milk Inspector.

Report of Park Commissioners

To the Citizens of Stoneham:

We hereby submit our report for the year ending Dec. 31, 1922.

At the Annual Town Meeting the sum of \$200 was appropriated for the care of the Pomeworth-Street Playground. This money was expended in the following manner:

In the Spring a ledge which showed several inches above the surface in left field was blasted out. Many smaller stones were removed and all rubbish gathered up and carted away. About 20 loads of sand and loam was screened and the low places filled, after which the entire field was rolled for two days with a tandem roller borrowed from the town of Wakefield.

The grass was cut as often as necessary and the grounds kept free from rubbish throughout the season.

Goal-posts were set for the use of the High School girls' hockey team, making an excellent court for this purpose.

The wire and posts were removed from around the tennis court. This court which was constructed of crushed stone was unsuitable for tennis. A tennis court should be made of clay such as is used in the manufacture of brick. Six new shade trees were planted to take the places of those broken down by the ice storm of December, 1921.

The baseball ground was used from early Spring till the middle of October by the High School and Stoneham Town teams, furnishing excellent sport for hundreds of the townspeople who attended the games.

Each Spring we find it necessary to do considerable grading before the roller is used. \$200 will be needed for the care of the grounds for the ensuing year.

Respectfully submitted,

GEORGE M. JEFTS,

JOHN WALSH,

HERBERT P. HOWE,

Park Commissioners.

ANNUAL REPORT
OF THE
PUBLIC SCHOOLS
OF THE
TOWN OF STONEHAM
1922

A democracy operates free public schools and passes compulsory attendance laws not through a sense of charity but because it realizes that education is the only means it has of perpetuating itself and promoting its own interests.

Report of School Committee

To the Citizens of Stoncham:

The School Committee submits herewith the annual reports of the School Department of the town for the year ending Dec. 31, 1922.

The report of the Superintendent of Schools will cover in detail the various phases of our school activities as well as our school needs.

The Committee believes that real progress has been made during the past year toward putting the physical equipment of the School Department in the best condition which is possible, considering the buildings and furniture which the town now possesses..

A definite program has been adopted for the early repair of all the buildings.

This year the interior of Whittier School was painted, the roof of Washington School was shingled, and all the schools with the exeception of the High School were re-fitted with up-to-date lavatories and bubbler drinking fountains. Whittier, Washington and Lincoln Schools were equipped with electric lights.

A beginning was made on replacing the worn-out wooden school fences with more substantial woven wire fences.

The additional fire escape in Dean School, called for by State authorities, has been installed.

This coming year the Committee plans to repaint the interior of the Washington School, re-shingle the Lincoln School and replace more of the wooden fences.

The exteriors of all the wooden buildings within a short time will require painting. Whittier, Washington and Lincoln Schools should be painted by the Summer of 1924.

The chief school problem before our town at present is how to provide accommodations for the increasing number of school children.

Our Superintendent has made a very careful analysis of the situation and has presented for consideration a solution of the matter.

The building of a Junior High School which is Mr. Porter's solution, and also the recommendation of the special committee chosen at the Annual Town Meeting last March is, in the opinion of the School Committee, the right way to relieve the overcrowded conditions

which will be upon us within a year, if our schools continue to grow as they have in the past few years.

EXPENDITURES OF SCHOOL DEPARTMENT

 School Committee.

Report of Superintendent of Schools

To the Town School Committee of Stoneham, Massachusetts:

I herewith submit my second annual report as superintendent of schools of the town of Stoneham. It is the thirty-second in the series of such reports.

In writing this report I have endeavored to tell in as few words as possible the most important achievements of the public schools in 1922 and to state the most pressing needs of the educational system of the Town.

Especial attention is directed to the reports of the High School Principal, reports of the supervisors, and to the statistics following these reports.

To the school committee, teachers, town officials, parents, citizens and all others who have co-operated with such a splendid spirit in the operation of the schools and have been so kind in making my stay in Stoneham pleasant and homelike, I express my heart felt thanks and appreciation.

Accomplishments in 1922

1. Educational.

(A) Special study of the teaching of reading in our schools has been made and from this more economical and efficient methods introduced so that in 1922 the average pupil increased one and one-half years in ability to comprehend printed matter.

(B) The teaching of history and geography has been vitalized so that the pupils are deeply interested and have learned to search for facts and reason from them instead of, as formerly, learning by pure memory a mass of dates and location facts.

(C) The work of grades 7 and 8 has been modernized by introducing the study of social and general science and American citizenship conducted by an expert in the teaching of these subjects.

(D) The grading and grouping of children has been so arranged that each pupil works in a group in each subject he studies which is working on problems adapted and suited to his needs and capacities. The program is so arranged that pupils may be promoted by subject instead of by grade as formerly thus saving the child time and saving the town money formerly spent in re-

instruction in subjects which the pupil had already passed. There are at present 21 distinct divisions available to any pupil in passing through grades one to six inclusive thus allowing for nearly every type and need.

(E) A separate division for children from non-English using families is given special assistance in the use of English under the able direction of Miss Hinchcliffe. These pupils generally fail in the regular rooms but a year or two of such special training in English fits them to go into a regular grade and do successful work.

(F) A thorough overhauling of our domestic science courses with the installation of cooking courses and modernization and improved articulation of the instruction and courses has been accomplished.

2. Improvement in Material of Instruction

(A) Books in history have been purchased and put into use which will allow for modern and well-motivated treatment of the subject.

(B) All pupils have been provided with map geographies and about one-fourth of the necessary reading material has been supplied.

(C) Literary readers to fill approximately half of the needs have been supplied.

3. Professional Improvement of Teachers

About 70% of our teachers have taken courses during the past year aiming to keep them abreast of the times in general educational thought and the technique of teaching. All this has been absolutely voluntary on the part of the teachers and of great value to the town. This devotion on the part of our teachers to the best interests of the boys and girls of Stoneham is highly commendable. Attention is called to the chart on page 140 giving a detailed list of teachers and courses.

4. Improvement of the Plant

(A) Installation of modern and sanitary washing and drinking facilities at the North, South, East, Center and Dean Schools.

(B) Installation of adequate artificial lighting at the North, South and East Schools.

(C) A number of other valuable and important improvements, a detailed list of which may be found in the reports of the school committee, high school principal and supervisors.

5. Improvement in Office Methods and Administration

(A) Economy in purchase of supplies through inviting bids on needs.

(B) System for ordering installed which saves time, insures ac-

curacy, and keeps information up to date and easily accessible.

(C) School savings system renovated to eliminate expensive office work and provide for more accurate accounting.

We Need a Junior High School

Our greatest need is additional room which can best be provided by a Junior High School connected with our present Senior High School.

We are now so overcrowded that in a year or two at the most it will be necessary to operate two sessions at the High School requiring several more teachers and very awkward hours, unless some relief in new building is furnished. A building authorized by the town in March, 1923, could not be ready for use before September, 1924, so action should certainly be taken at this time. Two sessions at the High School would necessitate one group attending from 7 A.M. to 1 P.M., and the other group from 1 P.M. to 6 P.M., certainly not an inviting program, especially as it would be very expensive on account of the extra teachers that would be required.

Following is a brief statement of our situation and needs:

Why Are Additional School Accommodations Necessary in Stoneham?

1. School attendance has increased at about 3% a year since 1890 and has been increasing slightly more the last 3 years. High School attendance has increased at about 5% during this period and 6% in the last three years. See pages 145-146-147.

2. In spite of the above increase there has been no new building since 1901, twenty-one years ago.

3. The high and elementary schools are both overcrowded, the high being 21% over capacity.

4. The town is growing more rapidly than during the past twenty years.

5. The town, only nine miles from Boston, is bound to grow even more rapidly in the immediate future and this growth cannot be accommodated in already over-crowded schools.

Why a Junior High School for Grades 7, 8 and 9, Operated in Conjunction With and Located Beside the Present High School Will Best Meet the Needs For Additional Accommodations

1. **Room.** (A) It will relieve the crowding in both the elementary and high schools by taking two grades from the elementary and one from the high school.

(B) It will provide an elastic unit providing for expansion in all grades.

2. **Economy.** (A) It will eliminate one principal saving one large salary as one principal could act for both buildings.

(B) It will provide an elastic unit providing for expansion in all

HOW THE PRESENT PLANT IS USED NOW.

HOW THE PRESENT PLANT WOULD BE USED IN 1924 WITH PROPOSED JUNIOR HIGH SCHOOL.

In 1924 there will be 120 pupils per grade in grades 2 to 8 and 150 in grade 1 as follows:

NORTH		SOUTH		EAST		CENTER		DEAN	
1	2	1	2	1	2	1	1	5	5
3	4	3	4	3	4	3	4	6	6
128 pupils		128 pupils		128 pupils		192 pupils		276 pupils	

SENIOR HIGH	COMMON FACILITIES	JUNIOR HIGH
10-11-12	HALL SHOPS DOM. SCI. GYMNASIUM	7-8-9
250 pupils		360 pupils

Only two additional teachers will be needed in 1924 in the two high schools.

schools in a common plant, as, assembly halls, gymnasiums, shops, laboratories, domestic science rooms, etc., thus saving expensive duplication.

(C) It will allow both schools to operate with a less number of teachers on account of ease in interchange of teachers and classes.

(D) It will eliminate one head janitor.

(E) It will save on coal, books and supplies by avoiding expensive duplication.

(F) It will eliminate tuition being paid to Melrose and Wakefield in Grades 7 and 8 and be a first step toward getting all Stoneham children in Stoneham schools.

(G) It will eliminate entirely the 13th year with an annual saving of at least \$5000.

3. **Education.** (A) It will allow an enriched curriculum on account of interchangeability of teachers in junior and senior high schools.

(B) It will hold more pupils in school who now leave for work.

(C) It will save the pupils time and allow for elimination of the extra year now in our school system.

(D) It will allow for recognition of individual differences in pupils and development of each individual to his fullest capacity.

(E) It will provide conditions for better teaching and the teaching of subjects necessary to modern education.

(F) It will provide for physical as well as mental education as now required by law in Massachusetts.

Size of Building

1. A building voted for in March, 1923, could not be occupied before September, 1924.

2. At that time there will be about 360 in the grades to occupy the building, that is 7, 8 and 9.

3. If the building is built to accommodate 500 as recommended by Mr. Kingsley of the State Dept. of Education, it would be filled at the present rate of increase in twenty-five years.

4. The building should be planned for at least 500 to fill needs for twenty-five years, 430 for ten years and 400 for five years.

STONEHAM SCHOOLS ARE GOOD SCHOOLS
OVERCROWDED SCHOOLS ARE BAD SCHOOLS
LET'S KEEP STONEHAM SCHOOLS GOOD SCHOOLS

Respectfully submitted,
FREDERICK W. PORTER.

January 12, 1923.

REPORT OF HIGH SCHOOL PRINCIPAL

Superintendent, Frederick W. Porter:

Dear Sir:

I am glad to record another year of work well done by the teaching staff and by the student body of the Stoneham High School.

Again, too, I wish to express my deep gratitude to you and to many citizens for the favorable conditions under which we have worked.

The Stoneham High School has graduated to date, 1239 young men and women. Many of them hold high positions of service, trust and honor, a splendid testimonial to the wisdom that has so liberally supported our schools.

Last June we graduated a class of forty-three, twenty-two of whom took the college course. In September, twelve went to college, three to Normal School, and one to a Business College. Our thanks are due the class for a beautiful marble drinking fountain, placed in the middle corridor.

The newly established course in cooking meets all expectations and is exceedingly valuable.

In our efforts to carry out the provisions of Section 1, Chapter 360 of the Acts of 1921, relating to Physical Education, we have received much help from the newly formed Citizens' Club, which is standing back of all high school athletics. In particular, our thanks are due them for the enclosed hockey rink just completed.

Our greatest immediate need is relief from a crowded condition. The Superintendent's office has been taken for recitations and his headquarters are now in the Reception Room. Also, recitations are being held pretty constantly in the library, and the laboratories are serving purposes for which they were not intended. The drawing teacher directs her work from the lower corridor.

A Junior High School would relieve the situation and make possible the carrying out of recommendations made in my last year's report. Let us hope we may have it soon.

In conclusion, I would emphasize the fact that education is a matter of general concern. The prosperity and safety of any country depends upon the enlightenment of all its people. The Towner-Sterling Bill now before Congress provides for the equalization of educational opportunities and should, therefore, have our support as far as we can give it, especially through the votes of our senators and representatives. Furthermore, opportunities for a higher education should be within the reach of all ambitious, mentally competent boys and girls, regardless of their financial circumstances. The crowded conditions of our Massachusetts colleges and their high tuition charges, negate such opportunities. Here, also, we should

exert what influence we can to bring about the establishment of a State University.

Respectfully submitted,
CHARLES J. EMERSON.

SPECIAL GRADES

Mr. Frederick W. Porter, Superintendent of Schools:

Dear Sir:

In response to your request I submit the following report of the work in Special Classes.

Special Class work in Stoneham Schools is conducted in two grades designated X and Y.

Grade Y is composed largely of younger children, doing work corresponding to Grades 1, 2 and 3, with an emphasis on Americanization, as many of these children are from non-English speaking homes. A group of older pupils in this grade who are able to do the arithmetic of Grades 5 or 6 go daily to those grades for that subject, but receive the Americanization program in Grade Y.

Grade X is largely made up of older pupils, most of whose academic work is beyond Grade 3.

In both grades, when a pupil shows ability to receive instruction with a larger group, he is transferred to regular grade work. One pupil from Grade Y has been so transferred.

The older pupils receive a maximum allotment of time in manual training and the boys have done creditably in wood work and the girls in sewing and cooking.

A marked gain has been noted in the majority of pupils in both grades, not only along academic lines but in development of character. Especially true is this in their increasing happiness in their work and their ability to take care of themselves.

Judgment has been developed through a program of attractive hand-work, suggestions and helps for which we are greatly indebted to Miss Cross.

We owe much to Mrs. Spaulding, our school nurse, for many improved conditions, to the School Board and to you, Mr. Porter, for assisting in every way to make Special Class work in Stoneham successful.

Respectfully submitted,
ALICE H. SMITH,
Supervisor of Standards and Guidance.
PENMANSHIP

Mr. F. W. Porter, Supt. of Schools,

Dear Sir:

In accordance with the custom of the Town of Stoneham I hereby

submit my first report of Penmanship in your schools.

My aim is to have the pupils become legible writers, with a reasonable amount of speed, for, after all, it is the legible writer that is required in the business world today, rather than the speed expert. To be sure speed is an asset but not at the expense of legibility.

The pupils are being trained to analyze their own work and, having found their errors, with the aid of the teacher, to apply the necessary remedy. One set of papers is saved each month for comparison with previous work so that the child may himself see just what progress he has made.

To the Superintendent and Teachers I desire to express my appreciation for their kindness and helpfulness at all times.

Respectfully submitted,

BEULAH H. LINSKOTT,

Supervisor of Penmanship.

MUSIC

Mr. F. W. Porter, Supt. of Schools,
Stoneham, Mass.

Dear Sir:

My aim in Public School Music is three-fold:

1. To establish within the child the desire to sing.
2. An appreciation of and desire for good music.
3. A working knowledge of the fundamental, theoretical facts which will help him in his appreciation.

Music appreciation is greatly aided by the Victrola. The School Councils have been very kind and considerate in placing Victrolas in all the schools. However, it would be a great help if, especially in the larger buildings, the Dean and Longfellow, we might have two. Some very fine records have been purchased and it is hoped that more soon will be.

A Music Memory Achievement Course is being planned to cover the music appreciation in the upper grades for the next few months. This will be somewhat similar to the Music Memory Contest under the direction of Miss Knightly last year.

Plans are already under way for another Music Week to take place sometime in the Spring. Music Week last year was a decided success and it is sincerely hoped that, with the co-operation of the Stoneham citizens and the Music Week Committee, we may have just as successful an one this year.

This committee, with the funds made during Music last year, have purchased violin outfits for fifteen pupils. These outfits, which include, beside the instrument, instruction books and other necessary

equipment for the beginner, are sold at the reduced rate of \$14.58. They may be paid for in one of two ways:

1. In full.
2. In three payments.

One class of fifteen pupils has already been formed. This class is to be taught by the supervisor and the lessons are free.

Instrumental classes are coming more and more into prominence in up-to-date school systems. We believe that we have here a foundation for this sort of thing.

At the present time we have a Dean School Orchestra; a High School Orchestra; a High School Chorus, and a Girls' Glee Club. Owing to unavoidable circumstances we have been rather slow in getting our High School musical organizations started. However, they are well under way now.

In the first grades we have the usual Kindergarten Bands. This helps to bring out of the child all sense of rhythm which he may possess, to give a sense of rhythm to the child who has formerly expressed none, and to aid him in his appreciation of music.

I cannot speak too highly of the Councils in our schools, and I wish to take this opportunity to express my appreciation to them, to the Superintendent, Teachers, Parents and others who are interested in music in the Stoneham Schools, for their helpfulness and co-operation.

Respectfully submitted,
BEULAH H. LINSKOTT,
Supervisor of Music.

SEWING

To the Superintendent, Mr. F. W. Porter:

Dear Sir:

The sewing this year has been confined to the sixth and seventh grades. We hope that this is only temporary and that arrangements can be made for adequate facilities whereby the sewing may be continued through the grammar and high schools.

In the sixth grade this year the girls have learned how to care for their own clothing; to keep it mended and in repair. These lessons covered the sewing on of buttons, patching, darning of stockings, etc. We then started machine work, requiring each girl to be able to correctly set up and thread a machine, wind and thread a bobbin and to stitch evenly and straight. For the first machine-made project a choice of nightgowns, slips, or bloomers was possible. A study of the patterns and their use preceded the cutting out of these articles. The next project will be of such a nature as to require different finishing

and so cover the field of seams, plackets, putting on of belts, ruffles and trimming.

The seventh grade girls began their year with a review of the sewing machine and its use. Each girl is making a cooking set, consisting of an apron, cap and sleeve protectors and upon completing these it is planned to make simple dresses or a simple blouse and skirt.

In both grades we are studying the growth and manufacture of cotton, kinds of cloth and their uses, laundrying and removal of stains.

Our aim is to so prepare these girls that they will be able to make and keep in repair their clothes and to give them a knowledge of materials that will enable them to purchase wisely.

The interest and enthusiasm which the girls show are an inspiration and help.

Respectfully submitted,

DORA C. SPRAGUE,

Supervisor of Home Economics.

COOKING

Superintendent Frederick W. Porter:

Dear Sir:

I am happy to make the first report of the cooking department.

Because our cooking room, due to be ready at the opening of school last September, was not ready for use until November first, we were somewhat handicapped. For the same reason we were unable to have our lunch counter, which is supplied by the cooking classes, in operation as soon as had been planned.

Our aim is a two-fold one: To train the girls in the selection, preparation and serving of food so as to provide the best possible nutrition in the home; to supply to the students, daily, a good nutritious lunch at a nominal cost.

At the present time there are twelve classes meeting weekly, each for a double period lesson. The course for these girls is to include the preparation of beverages, soups, stews, chowders, creamed and escalloped dishes, cereals, fruits, vegetables, quick breads, bread, fish, meat, salads, cake, cookies, puddings, pastry and desserts. Each class is also to have instruction in correctly setting a table and serving a meal, and in the duties and responsibilities of hostess, host and guests. The girls are given projects, based on the class work, to be carried out at home for a definite period of time such as a week. Examples of these are setting the table, preparing for one meal every day the beverage, or quick bread in some form, or a dessert, or a salad, etc. In this way our work becomes of value in the home, increasing as we progress.

All of the food sold at the lunch counter is prepared and served by the cooking classes. In planning the lunches we keep in mind that

health is without question largely dependent upon proper food and try to include all of the elements contributing to good nutrition. Some of the lunches which we have served are:

Vegetable Soup	\$.05	Creamed Tuna Fish on Rice	\$.06
Chopped Ham Sandwich	.04	Cheese and Olive Sandwich	.03
Peanut Butter Sandwich	.02	Jelly Sandwich	.03
Cocoa	.03	Cottage Pudding	.05
Banana Pudding	.05	Cocoa	.03
Macaroni and Cheese (Baked)	\$.06		
Tuna Fish and Celery Sandwich	.04		
Baked Apples and Cream	.04		
Cocoa	.03		
Meat and Potato pie	\$.06	Fish Chowder	\$.06
Shrimp Salad Sandwich	.04	Raisin and Nut Sandwich	.03
Jelly Sandwich	.03	Peanut Butter Sandwich	.02
Dutch Apple Cake and Sauce	.05	Chocolate Bread Pudding	.05
Cocoa	.03	Cocoa	.03

The lunch counter is proving to be self-supporting and the demand is increasing.

We are very much handicapped for space both in the cooking room and the lunch room. We also need more time given over to this work so that upon completing the high school course the girls will have had opportunity for training not only in cooking but also in the care and management of the home, home sanitation and science, hygiene and the care of the sick in the home.

I wish to express my appreciation to the School Committee, School Superintendent and others, who, by their helpfulness, support and encouragement have started Home Economics in Stoneham on the way to success.

Respectfully submitted,

DORA C. SPRAGUE,

Supervisor of Home Economics.

REPORT OF SCHOOL NURSE

Superintendent Frederick W. Porter:

Dear Sir:

The past year shows an increase in the work done by the School Nursing Department, two months excepted during which illness prevented the school nurse attending to her duties.

Mid-morning lunches have been served to those pupils who wished it at cost. This lunch consisted of milk and crackers. The expense of serving crackers was considered too great, consequently pupils were requested to bring graham crackers from home and milk is served at cost in the school room.

Each pupil has been weighed once a month, when possible, the percentage gain or loss computed and tabulated, and the parents of every pupil 10% or more underweight have been notified. The co-operation shown by parents is gratifying and efforts have been made to keep pupils up to normal weight.

A nutrition clinic has been formed under the supervision of Dr. Hersam, our school physician. Pupils elected to this clinic receive, free of charge, cod liver oil which is furnished by the E. L. Patch Co. Much is expected from this clinic.

Physical examinations have not yet been made this year but after the Christmas recess this work will be started.

A record of work supervised by the School Nurse accompanies this report:

School visits with Dr. Hersam	10
Assisted Dr. Hersam in examinations	112
Negative	100
Defected (and excluded)	12
Assisted Dr. Hersam in examining pupils exposed to

Chicken pox	2
Diphtheria	1
Assisted in giving mental test	80

An illustrated lecture, by Miss Foster of the National Dairy Council, on health and food was given to all pupils except the High School pupils. This lecture proved very helpful in bringing home important facts regarding health.

I heartily appreciate the support so cheerfully given me by the School Committee, parents, teachers and Superintendent Porter.

Respectfully submitted,

GERTRUDE SPAULDING, R. N.,
School Nurse.

REPORT OF DRAWING TEACHER

Mr. Frederic W. Porter, Superintendent of Schools.

Dear Sir:—In my report of the drawing for this year, I wish to state a few of the aims of the art department and the reasons for these ideals. In doing this, I shall have in mind three questions which a superintendent of Massachusetts once used as a topic for discussion in an address to his teachers. They were as follows:—"What are you doing? Why are you doing it? Why are you doing it like that?"

It would be necessary to make too lengthy answers if we were to consider each question individually, so we will merely be guided by them in a general way. Let me first say one thing that we are **not** attempting. We are **not** trying to make artists of our pupils. Often the public has the idea that this is our aim and the pupils themselves sometimes think that. Only recently a boy said to me: "I can't draw. I can never be an artist." He looked surprised when I told him that I did not want him to be an artist. This idea that art is for artists **only** has been to blame for many mistaken ideas both on the part of the public and teachers. If the teachers had understood earlier that art was for everybody's good and pleasure, they would not have tried to train all pupils as if art were to be a vocation. If the public had understood earlier, they would have considered drawing of greater importance and encouraged the children in its study.

What then are we trying to do by this art instruction in the public schools? And why are we doing it? We naturally desire subjects taught in our schools that will aid the pupils to earn their living and assist them to live as good citizens. We wish to inspire them with ambition, to train their taste in the appreciation of beautiful things so that they will be able to obtain all the enjoyment possible from the beauty in nature and in art. In other words, we want our subject to aid in making the boys and girls both happier and more useful,—for usefulness and real happiness are always found together.

Now, drawing, more than some studies, has power to aid in the physical, mental, and spiritual development of the child. How can drawing be expected to be of help in the training of the body? There are but few persons, who, without the aid of practice in sketching from objects, can depend upon their eyes for reliable service. The statement: "I saw it with my own eyes" is without value unless those eyes have been trained to distinguish facts from appearances. This applies to both facts of form and facts of color as distinguished from apparent form and apparent color. And few indeed are those who, without the help given by a course in drawing or some kind of handicraft, can depend upon their hands, as upon trustworthy servants, to produce neat and accurate work. Surely the training of the eyes to see and the hands to perform must be regarded as important factors in the physical development of the child.

What can be expected of drawing as an aid to mental development? It is admitted that many children are dreamy,—lacking in concentration. Now mechanical drawing administered with a relentless insistence upon accuracy is an excellent antidote for such traits. Application of measurements in the construction of cardboard models will do much to convince them that accuracy is not just a meaningless

phrase uttered by the teacher. The disgusted expressions on the faces of pupils whose drawings of boxes, when cut and folded, cannot be made to go together to form boxes, because measured inaccurately, show that the **facts** resulting from careless work speak to the child more plainly than **words**. A lounging mental attitude cannot exist if the pupil masters this kind of drawing. The attempt to represent appearances is also considered by educational experts one of the greatest aids in the developing of the judgment.

As to the claim for the influence of drawing on the development of character, it is surely true that the best art of the world has been the expression of religious ideals and thus the teaching of art appreciation cannot fail to elevate the ideals of the child. In this age, sometimes criticized for being too much given to practical things, we can ill afford to slight subjects which cultivate the imagination and give power to enjoy the beauty of the world.

Aside from the fact that we have devoted more time to the study of design and art appreciation during the last year, there have been no marked changes in my courses of study.

It is somewhat difficult to carry on High School drawing without an art room, and, of course, there are some subjects that simply cannot be attempted in the ordinary class room. We can only do the best possible under very crowded conditions, and the pupils of this school are so anxious to draw that they do much work afternoons when we have more room at our disposal.

At the National Education Association held in Boston last July, we exhibited the drawings of our Stoneham Schools. We were fortunate in securing a large amount of wall space in the Girls' Latin School, where a large part of the educational exhibits were held. Our drawings were on exhibition during the entire week of the Convention.

I am deeply indebted for the faithful work of the teachers who are always so ready to carry out my plans, to the School Committee for their hearty co-operation and to yourself for your never-failing interest and assistance.

Respectfully submitted,
EVELYN F. CROSS.

MANUAL ARTS

Mr. Frederick W. Porter, Superintendent of Schools.

Dear Sir:—The following is my annual report of work in Manual Training and Mechanical Drawing.

The Manual Arts Department is always alert for improvements or additions to increase the efficiency of the department. This year we introduced woodworking into the sixth grade in addition to the seventh, eighth and ninth grades who are already taking it.

So far the work has been confined to the making of simple articles of practical use absolutely by hand. Every sample of work for which they are credited is the work of their hands under supervision. The laying out, making, sawing, planing, jointing, and leveling are required to be done by the pupils themselves, and must come up to a certain standard of accuracy, by frequent repetition if necessary, before they can pass on to the next piece of work.

If the work done here in the lower grades could be continued through the High School we should have some very good specimens of workmanship to exhibit.

There is a great need for more equipment, and I wish to recommend the addition of an individual motor-drive, circular saw and band saw.

In Mechanical Drawing the first year boys are making working drawings of simple wooden and metal objects besides doing some lettering. The second year boys are making assembly sectional and machine drawings. The text books used are: "Babbitt's Mechanical Drawing," and "French and Svenson's Mechanical Drawing for High School." The course is of a very practical nature and is arousing interest in the department, especially among the older students.

In closing I wish to thank the Superintendent, School Board and all who have co-operated to make the year's work a success.

Respectfully submitted,

FREDERICK A. CAMPBELL,

Director of Manual Arts.

Report of Tree Warden

To the Citizens of Stoncham:

I hereby submit my report as Tree Warden for the year ending Dec. 31, 1922.

The sum of \$3,000 was appropriated at the Annual Town Meeting for the care of shade trees.

More than one-half of this sum was expended in removing dangerous hanging limbs (a result of the ice storm of December, 1921) and in hauling away fallen branches from the roadsides and private estate where they had been thrown to clear the streets. The remainder was used in a thorough treatment of injured trees. Less than one-half of our public shade trees have been completed to date.

A generous appropriation will be needed to complete the task the coming year.

Practically all of the untreated trees are in a more or less broken condition. Every broken limb and every wound that penetrated as far as the inner bark may become a point of entrance of active plant or animal parasites or of producing organisms unless these injuries are promptly and properly treated. The best, safest and most economical plan to prevent future extensive injury and decay or to prevent the early disfigurement or death of the tree is to attend to all injuries as soon as possible after they occur.

If injuries are allowed to remain untreated for some years decay-producing organisms almost invariably enter through the wound and produce rotted areas in the wood, often to such an extent that a violent wind a few years later will break the tree at the decayed and weakened spot. It can readily be seen that the best and safest plan for the preservation of the trees and the safety of the traveling public is to have the trees treated before the danger point is reached.

NEW SHADE TREES

At the Annual Town Meeting \$300 was appropriated for new shade trees. Sixty Norway and 6 sugar maples were purchased from the A. M. Tuttle nurseries, Melrose, and planted in suitable locations. Cedar posts and wire guards were procured for their protection. Twenty

loads of loam were used in this planting. All but two of these are living and doing well.

The Stoneham Woman's Club donated \$6.00 for the planting of a tree, thus showing a spirit of helpfulness that was greatly appreciated by the Tree Warden.

During the year 28 trees were removed from the streets, which shows that the older trees are gradually passing. To take their places new trees should be planted. In all parts of the town there is need of more shade trees to make our streets cool, healthful and attractive.

The Tree Warden will ask for an appropriation of \$300 for new shade trees for the ensuing year.

GEORGE M. JEFTS, Tree Warden.

Report of Overseers of Poor

To the Citizens of Stoneham:

Your Board would most respectfully submit the following as its report for the year 1922:

From all reports received from other cities and towns, the past year has been a record breaker for the number of calls for outside aid, but as our town is blessed with so many benevolent orders connected with our several churches, women's clubs, Red Cross, fraternal societies and citizens who have the welfare of our unfortunate people at heart, we have been able to give proper attention to all worthy cases and have, at the end of the year, a small unexpended balance.

At a regular meeting held March 13, after being duly authorized, the following organization was perfected: Sidney A. Hill, chairman; Wilder C. Moulton, clerk; Charles H. Carr, secretary; James H. White, warden; Ella E. White, matron; and George W. Nickerson, M.D., town physician.

The management at the Town Farm remains the same. All inmates are in good health, comfortable and happy. Number cared for during the year, 10; average age, 53½ years. The products of Farm have been above the average. The buildings are in good shape only minor repairs required. The front fence, which was badly out of repair has been removed greatly improving the appearance of the property.

INVENTORY, January 1, 1923

House	\$12,000.00	
Barn	5,000.00	
Out Buildings	1,000.00	
17 Acres of land	6,000.00	
Contents of house	1,063.36	
Contents of barn	1,947.50	
Farm implements	370.50	
		\$27,381.36
Receipts from Farm milk and sundries	2,794.44	

We wish to express our thanks to all who have so kindly aided us in our work and feel sure it is fully appreciated by all our citizens.

For the financial report we refer to report of Town Accountant.

Signed

SIDNEY A. HILL,
WILDER C. MOULTON,
CHARLES H. CARR,
Overseers of Poor.

Report of Trustees Public Library

To the Citizens of Stoneham:

The annual report of the Trustees is herewith presented.

During the summer the library was closed for five days and the walls and ceilings were refinished so that they present the same pleasing appearance that they had when the library building was opened in 1904. The work was done thoroughly and without mishap and is a credit to the firm that did the work. Some of the furniture needs re-finishng to complete the work of renovation.

The library was fortunate in obtaining the usual supply of egg coal early in the summer. The heater appears to be in good condition although we may soon expect to make more than the usual repairs on account of deterioration through years of service.

In general the physical condition of the library and grounds is excellent and speaks well for the care of our janitor.

At the close of the year, our librarian, Miss Crocker, presented her resignation as she found that it was possible for her to complete her work at Simmons College and obtain her degree in one year. The work is now being carried on by the assistant librarian, Miss Howell, together with Miss Donahue, who has had experience in the Woburn Library, and several young women from the High School.

The citizens may justly take pride in a well-kept library. A deference to the rights of those who use the library demands quiet and orderly behavior of all who enter the building. Every courtesy and privilege is to be extended to the patrons but the abuse of the library as a rendezvous for illbred or unthinking young persons must stop. Parents and those in authority can help in this matter.

A partial record of the work of the library follows in the report of the assistant librarian.

The trustees recommend the appropriation of \$4,000 and the dog tax for the maintenance of the library and the purchase of books.

Respectfully submitted,

CHARLES H. CHASE,
CORA E. DIKE,
GEORGE A. HINCHCLIFFE,
SARAH A. LYNDE,
GEORGE A. PACKARD,
HERBERT H. RICHARDSON,

Trustees of the Public Library.

LIBRARIAN'S REPORT FOR 1922

To the Trustees of the Stoneham Public Library:

There were 965 new books and 5 new magazines added by purchase or gift to the Public Library in 1922. Some of these were::

Leacock, *My Discovery of England*; Van Rensselaer, *Manual of Fear*; Ranunzio, *Soul of an Immigrant*; Foster, *Adventures of a Tropical Tramp*; Stefaussan, *The Friendly Arctic*; *Mirrors of Washington*; *Mirrors of Downing Street*; Day, *Alphabets, Old and New*; Van Loon, *Story of Mankind*; *World Book* (10 vols.).

Wireless Books: Bucher, *Practical Wireless Telegraphy*; Edelman, *Experimental Wireless Stations*; Lescarbours, *Radio for Everybody*.

New magazines added in 1922: *Boston University Law Review* (gift of Mr. Robert Quimby); *Motor*, *Asia*, *Photo-Era*, *Science and Invention*.

EXHIBITION

There was an exhibition of some of the new juvenile books held in the Trustees' Room of the Public Library during library hours from December 17 to 23 inclusive. The purpose of this exhibition was to acquaint the parents and teachers with the number and nature of the new books which had been purchased and also to suggest good books for Christmas gifts.

THE CERTIFICATE READING LIST

Fourteen Certificates were given to pupils of the eighth grade and below for reading five books and answering three questions about them. This list of books and the questions were sent from the Division of Public Libraries.

STAFF

Julia L. Crocker, librarian; Mildred Howell, assistant; Isabelle Bronk, Pauline Foss, Ruth Martin, Marion Park, Olive Hutchinson, Dorothy Chase, Marion Saxby, Barbara Baben, High School assistants. Miss Louise Donahue from Woburn assisted through December.

Unissued Water Bonds No. 10 to 30 inclusive.

I would recommend that the town appropriate from its surplus revenue the sum of \$25,000.00 in place of having the same enter the tax levy, leaving a balance of \$9,299.37 which in my opinion will be sufficient to care for any deficit in taxes prior to the levy of 1922.

The accounts of the Treasurer have been examined and agree with the Accountant's books; cash balances have been examined and verified by bank statements.

All temporary loans and permanent loans cancelled by the Treasurer have been examined and found as reported.

I hereby thank the Honorable Board of Selectmen and all other Town Officials who have co-operated and assisted in the work of the Department.

Respectfully submitted,
GEORGE N. GREEN,
Town Accountant.
